NOTES ON NEWS OF THE DAY.

MR. CLEVELAND sent and effusive letter of thanks to the New York Chamber of Commerce yesterday for his election as an honorary member. He has not yet returned thanks to the city for the job of $4 a day that has been tendered him at the High Bridge Park.

THE Day girls, who confessed to several acts of incendiarism at Summit, N. J., on Wednesday, are believed by the police to have been romancing. One of the fires that they claim to have started was fully proved against one Van Ness last fall, and he is serving out a long term in prison for the crime.

EDWIN BOOTH arrived home safely yesterday, and was much improved. He does not admit that the attack was paralysis but a temporary loss of voice. This had happened to him several times before, but not on the stage. His friends attribute the trouble to excessive smoking. He smokes twenty big imported cigars a day.

THE left foot of Rev. Edward Beecher, which was crushed in a railroad accident in Brooklyn last Wednesday night, was amputated yesterday. Mr. Beecher soon rallied from the operation, and the surgeons are hopeful that he will survive. He is at the Seney hospital and cannot be removed to his home.

GOV. STEVENSON of Idaho has issued a call for a constitutional convention to meet at Boise City July 4th. This action is taken on the assurance received from Delegate Dubois at Washington, that Idaho will become a state next winter. The constitution will be framed, state officers and a Legislature elected next fall, and two United States Senators chosen next winter.

SPEAKER COLE explained before the ceiling investigation committee the $4,000 draft which was found in his pocketbook last fall. He had borrowed the money from John M. Drake of New York, expecting to invest it in some bank stock which was offered at an advantageous figure. The deal fell through, and he returned the money to Mr. Drake. The latter was present and confirmed the Speaker's statement. This puts another Democratic scandal to sleep.

LANDLORD MERRIFIELD of the Continental Hotel, New York, and Dr. Tevis were arrested yesterday and arraigned before Justice Duffy for shielding a girl who had attempted suicide. Merrifield explained that the girl hired a room at his hotel and took a dose of chloroform. He discovered her and called in Dr. Tevis, who saved her life. Then he raised a generous sum for her and secured her a situation. The Judge, after hearing the story, told the prisoners that "if that is all you know about it you may go."

THE bill for the appointment of a commission to determine whether New York, Brooklyn, Long Island City, Richmond county and the southern towns of Westchester county should be included in one city passed to a third reading in the Assembly yesterday. It is stated that every one of the twelve members from Kings county will vote against the bill. They prefer to have Brooklyn remain a city by itself until it gets ahead of New York.

THE Democratic Postmaster at St. Clair, Pa., is supposed to be in New York with the funds of the office in his possession. The Democratic Assistant Postmaster at Elmira is missing with $1,500 of government cash. These rascals are in full sympathy with the surplus-reduction policy of their party. They are setting the fashion of drawing a few years salary in advance which may prove contagious. It would undoubtedly be a wise precaution on the part of the government to set a careful watch on the postoffices till the clean sweep is completed.

ROBERT T. LINCOLN arrived in Washington yesterday to talk with the President about the English mission. At the Arlington Hotel he expressed surprise that Gen. Harrison should have thought of him. He declared that he did not feel fitted for the place either by experience or talent. He doubted whether it would be just to the President and the country for him to accept an office of so much responsibility, the duties of which were entirely new to him. On visiting the President he expressed anew his reluctance, but was answered that it was an appointment that no man could decline, and that he should consider his acceptance already received. After a visit to Mr. Blaine it was understood that Mr. Lincoln had decided to accept.

THE "Calliope," the English war ship which succeeded in getting out to sea at Samoa in the terrible cyclone that wrecked the American and German vessels, has arrived at Sydney without the loss of a life. The Captain reports that precautions against hurricanes had been taken before the storm burst. Five anchors had been dropped but the chains of four were broken and the vessel began to drift. He then sailed for the open sea, working his way at the rate of a half-knot an hour, while tremendous seas broke over the vessel. The Captain reports that before he left Apia the American man-of-war Nipsic had been floated off the beach.

CONGRESSMAN C. R. BRECKINRIDGE has been holding conferences with the Governor of Arkansas this week, at which he proposed to contribute a large sum of money to aid in hunting down the Clayton assassins. Mr. Breckinridge's action is remarkably late, as the murder took place on the 29th of January. And it is not the right kind of action either. His money is not needed, for the Little Rock *Gazette* declares that the murderers are known and can be arrested whenever they are wanted. Mr. Breckinridge's correct way of condemning the Clayton murder would have been to resign from Congress. If he had done this a fortnight ago John Johnson would not have been murdered. His declination to do so was a square endorsement of the Clayton murder, and encouraged his partisans to proceed in the work of blood. It may be that the Johnson murder has alarmed him, and that he is anxious to show that he is not in sympathy with the thugs who are in charge of his political interests. His money will not procure their arrest, neither will it prevent other murders if found necessary to keep him in office.

Savery and Yates' Prison Labor Bill Special Order for Thursday.

By Telegraph to The Freeman.

ALBANY, April 5.—Linson's Kingston City charter amendment bill was reported in the Assembly to-day.

On motion of Fish it was resolved that hereafter the sessions of the House shall begin at 10:30 A. M. and close at 2 P. M.

The Senate amendments to the bill reappropriating $100,000 for bottoming out the canals were non-concurred in and a Conference Committee was appointed.

On motion of Crosby the Savery and Yates prison labor bills were made a special order for Thursday morning next.

The House went into Committee on the anti-dressed beef bill.

Nixon, the introducer, make a long speech in explanation and advocacy of the bill.

Crosby said that while the bill was ostensibly introduced for the purpose of preserving the public health, and while it was skillfully and ingeniously drawn to avoid unconstitutionality, the bill was really for the purpose of preventing the competition of Western with Eastern dealers.

The Committee rose, and on motion of Nixon the bill was ordered to a third reading, 55 to 39.

Bills reported: Husted's, appropriating $56,000 to improve the sanitary condition of the Capitol. Larmon's, to equalize taxation on real and personal property. Murphy's, amending the act authorizing the use of State armories by associations of discharged veterans. [Third reading.] Cottrell's bill to establish dairy schools. Savery's drainage of lowlands bill. McAdams', relative to labeling bottles, etc., containing cotton seed oil products. Senator Erwin's, to promote dairy agriculture.

Fish's bill for the establishment of a Reformatory for women in either New-York or Kings County was passed.

The report of the Conference Committee on the bill appropriating $100,000 for bottoming out the canals was agreed to and the bill now goes to the Governor.

Andrus, from the Committee on Privileges and Elections, reported the Cronin-Brownell contested seat case in favor of the present member, Cronin. The report was tabled. Adjourned until Monday night.

IN THE STATE SENATE.

By Telegraph to The Freeman.

ALBANY, April 5.—In the Senate to-day the Finance Committee reported the general appropriation bill. Expenses of Commissioners of Labor Statistics, $15,000, increased to $20,000. Expenses of manufacturing in the Elmira State Reformatory, $70,000, increased to $100,000. Hudson House of Refuge, $60,000. Commissioners of Niagara reservation, $20,000, increased to $25,000. Brockport Normal School $18,000, increased to $20,000. Cortland Normal School $18,000, increased to $20,000. New-Paltz Normal School $17,000, increased to $18,000.

Coggeshall introduced, at the request of Worth, who was absent and ill, Green's New York and New-Jersey bridge bill.

The conference report on the $100,000 canal bill for "bottoming out" was accepted and the bill was passed. Adjourned until Monday night.

IT COST TOO MUCH.

The Sad Experience which Befell One of the Astors.

In the early days of the direct tea trade with China, importers were anxious to secure the earliest cargoes of a new crop.

The fastest clipper ships were engaged in the trade. Great haste in loading them was followed by a hot race to reach New-York first.

The first cargo brought the best price and large profits. The successful Captain was always rewarded, so every known aid to navigation was adopted.

The young Captain of one of Mr. Astor's clippers bought, on one of his trips, a new chronometer, and with its aid made a quick passage, and arrived first. He put the price of it into the expense account of the trip, but Mr. Astor threw it out, insisting that such an item of expense for new fangled notions could not be allowed.

The Captain thereupon resigned and took service with a rival line.

The next year he reached port long in advance of any competitor, to the great delight and profit of his employers, and the chagrin of Mr. Astor.

Not long after they chanced to meet, and Mr. Astor inquired:

"By the way, Captain, how much did that chronometer cost you?"

"Six hundred dollars." Then, with a quizzical glance, he asked:

"And how much has it cost you, Mr. Astor?"

"Sixty thousand dollars."

Men are often unfortunate in the rejection of what they call new-fangled notions.

There are sick men who refuse, even when their physicians tell them they cannot help them, to take Warner's Safe Cure, because it is a "new fangled" proprietary medicine. The result is they lose—life and health.

Thousands of other men have been restored to health by it, as the testimonials furnished to the public show. These testimonials cannot be doubted. The proprietors have a standing offer of $5,000 to any one who will show that any testimonial published by them is not, so far as they know, entirely true.

Dr. Andrew Wilson, Fellow of the Royal Society, of Edinburgh, the editor of "Health," London, Eng., says, in his magazine, in answer to an inquiry, "Warner's Safe Cure is of a perfectly safe character, and perfectly reliable."

The refusal of a manufacturing firm to pay for the patent of a new invention by one of their workmen, cost them their entire business. A new firm took out the patent and were soon enabled to make goods enough cheaper to drive the old firm out of business; and many a physician is daily finding his patients, long-time chronic invalids, unaccountably restored to health by the use of a new kidney specific. New fangled notions are sometimes very valuable, and it costs too much to foolishly reject them.

NOTES ON NEWS OF THE DAY.

MR. CLEVELAND sent and effusive letter of thanks to the New York Chamber of Commerce yesterday for his election as an honorary member. He has not yet returned thanks to the city for the job of $4 a day that has been tendered him at the High Bridge Park.

THE Day girls, who confessed to several acts of incendiarism at Summit, N. J., on Wednesday, are believed by the police to have been romancing. One of the fires that they claim to have started was fully proved against one Van Ness last fall, and he is serving out a long term in prison for the crime.

EDWIN BOOTH arrived home safely yesterday, and was much improved. He does not admit that the attack was paralysis but a temporary loss of voice. This had happened to him several times before, but not on the stage. His friends attribute the trouble to excessive smoking. He smokes twenty big imported cigars a day.

THE left foot of Rev. Edward Beecher, which was crushed in a railroad accident in Brooklyn last Wednesday night, was amputated yesterday. Mr. Beecher soon rallied from the operation, and the surgeons are hopeful that he will survive. He is at the Seney hospital and cannot be removed to his home.

GOV. STEVENSON of Idaho has issued a call for a constitutional convention to meet at Boise City July 4th. This action is taken on the assurance received from Delegate Dubois at Washington, that Idaho will become a state next winter. The constitution will be framed, state officers and a Legislature elected next fall, and two United States Senators chosen next winter.

SPEAKER COLE explained before the ceiling investigation committee the $4,000 draft which was found in his pocketbook last fall. He had borrowed the money from John M. Drake of New York, expecting to invest it in some bank stock which was offered at an advantageous figure. The deal fell through, and he returned the money to Mr. Drake. The latter was present and confirmed the Speaker's statement. This puts another Democratic scandal to sleep.

LANDLORD MERRIFIELD of the Continental Hotel, New York, and Dr. Tevis were arrested yesterday and arraigned before Justice Duffy for shielding a girl who had attempted suicide. Merrifield explained that the girl hired a room at his hotel and took a dose of chloroform. He discovered her and called in Dr. Tevis, who saved her life. Then he raised a generous sum for her and secured her a situation. The Judge, after hearing the story, told the prisoners that "if that is all you know about it you may go."

THE bill for the appointment of a commission to determine whether New York, Brooklyn, Long Island City, Richmond county and the southern towns of Westchester county should be included in one city passed to a third reading in the Assembly yesterday. It is stated that every one of the twelve members from Kings county will vote against the bill. They prefer to have Brooklyn remain a city by itself until it gets ahead of New York.

THE Democratic Postmaster at St. Clair, Pa., is supposed to be in New York with the funds of the office in his possession. The Democratic Assistant Postmaster at Elmira is missing with $1,500 of government cash. These rascals are in full sympathy with the surplus-reduction policy of their party. They are setting the fashion of drawing a few years salary in advance which may prove contagious. It would undoubtedly be a wise precaution on the part of the government to set a careful watch on the postoffices till the clean sweep is completed.

ROBERT T. LINCOLN arrived in Washington yesterday to talk with the President about the English mission. At the Arlington Hotel he expressed surprise that Gen. Harrison should have thought of him. He declared that he did not feel fitted for the place either by experience or talent. He doubted whether it would be just to the President and the country for him to accept an office of so much responsibility, the duties of which were entirely new to him. On visiting the President he expressed anew his reluctance, but was answered that it was an appointment that no man could decline, and that he should consider his acceptance already received. After a visit to Mr. Blaine it was understood that Mr. Lincoln had decided to accept.

THE "Calliope," the English war ship which succeeded in getting out to sea at Samoa in the terrible cyclone that wrecked the American and German vessels, has arrived at Sydney without the loss of a life. The Captain reports that precautions against hurricanes had been taken before the storm burst. Five anchors had been dropped but the chains of four were broken and the vessel began to drift. He then sailed for the open sea, working his way at the rate of a half-knot an hour, while tremendous seas broke over the vessel. The Captain reports that before he left Apia the American man-of-war Nipsic had been floated off the beach.

CONGRESSMAN C. R. BRECKINRIDGE has been holding conferences with the Governor of Arkansas this week, at which he proposed to contribute a large sum of money to aid in hunting down the Clayton assassins. Mr. Breckinridge's action is remarkably late, as the murder took place on the 29th of January. And it is not the right kind of action either. His money is not needed, for the Little Rock *Gazette* declares that the murderers are known and can be arrested whenever they are wanted. Mr. Breckinridge's correct way of condemning the Clayton murder would have been to resign from Congress. If he had done this a fortnight ago John Johnson would not have been murdered. His declination to do so was a square endorsement of the Clayton murder, and encouraged his partisans to proceed in the work of blood. It may be that the Johnson murder has alarmed him, and that he is anxious to show that he is not in sympathy with the thugs who are in charge of his political interests. His money will not procure their arrest, neither will it prevent other murders if found necessary to keep him in office.

Savery and Yates' Prison Labor Bill Special Order for Thursday.

By Telegraph to The Freeman.

ALBANY, April 5.—Linson's Kingston City charter amendment bill was reported in the Assembly to-day.

On motion of Fish it was resolved that hereafter the sessions of the House shall begin at 10:30 A. M. and close at 2 P. M.

The Senate amendments to the bill reappropriating $100,000 for bottoming out the canals were non-concurred in and a Conference Committee was appointed.

On motion of Crosby the Savery and Yates prison labor bills were made a special order for Thursday morning next.

The House went into Committee on the anti-dressed beef bill.

Nixon, the introducer, make a long speech in explanation and advocacy of the bill.

Crosby said that while the bill was ostensibly introduced for the purpose of preserving the public health, and while it was skilifully and ingeniously drawn to avoid unconstitutionality, the bill was really for the purpose of preventing the competition of Western with Eastern dealers.

The Committee rose, and on motion of Nixon the bill was ordered to a third reading, 55 to 39.

Bills reported: Husted's, appropriating $56,000 to improve the sanitary condition of the Capitol. Larmon's, to equalize taxation on real and personal property. Murphy's, amending the act authorizing the use of State armories by associations of discharged veterans. [Third reading.] Cottrell's bill to establish dairy schools. Savery's drainage of lowlands bill. McAdams', relative to labeling bottles, etc., containing cotton seed oil products. Senator Erwin's, to promote dairy agriculture.

Fish's bill for the establishment of a Reformatory for women in either New-York or Kings County was passed.

The report of the Conference Committee on the bill appropriating $100,000 for bottoming out the canals was agreed to and the bill now goes to the Governor.

Andrus, from the Committee on Privileges and Elections, reported the Cronin-Brownell contested seat case in favor of the present member, Cronin. The report was tabled. Adjourned until Monday night.

IN THE STATE SENATE.

By Telegraph to The Freeman.

ALBANY, April 5.—In the Senate to-day the Finance Committee reported the general appropriation bill. Hudson House of Refuge, $60,000. Commissioners of Niagara reservation, $20,000, increased to $25,000. Brockport Normal School $18,000, increased to $20,000. Cortland Normal School $18,000, increased to $20,000. New-Paltz Normal School $17,000, increased to $18,000.

IT COST TOO MUCH.

The Sad Experience which Befell One of the Astors.

In the early days of the direct tea trade with China, importers were anxious to secure the earliest cargoes of a new crop.

The fastest clipper ships were engaged in the trade. Great haste in loading them was followed by a hot race to reach New-York first.

The first cargo brought the best price and large profits. The successful Captain was always rewarded, so every known aid to navigation was adopted.

The young Captain of one of Mr. Astor's clippers bought, on one of his trips, a new chronometer, and with its aid made a quick passage, and arrived first. He put the price of it into the expense account of the trip, but Mr. Astor threw it out, insisting that such an item of expense for new fangled notions could not be allowed.

The Captain thereupon resigned and took service with a rival line.

The next year he reached port long in advance of any competitor, to the great delight and profit of his employers, and the chagrin of Mr. Astor.

Not long after they chanced to meet, and Mr. Astor inquired:

"By the way, Captain, how much did that chronometer cost you?"

"Six hundred dollars." Then, with a quizzical glance, he asked:

"And how much has it cost you, Mr. Astor?"

"Sixty thousand dollars."

Men are often unfortunate in the rejection of what they call new-fangled notions.

There are sick men who refuse, even when their physicians tell them they cannot help them, to take Warner's Safe Cure, because it is a "new fangled" proprietary medicine. The result is they lose—life and health.

Thousands of other men have been restored to health by it, as the testimonials furnished to the public show. These testimonials cannot be doubted. The proprietors have a standing offer of $5,000 to any one who will show that any testimonial published by them is not, so far as they know, entirely true.

Dr. Andrew Wilson, Fellow of the Royal Society, of Edinburgh, the editor of "Health," London, Eng., says, in his magazine, in answer to an inquiry, "Warner's Safe Cure is of a perfectly safe character, and perfectly reliable."

The refusal of a manufacturing firm to pay for the patent of a new invention by one of their workmen, cost them their entire business. A new firm took out the patent and were soon enabled to make goods enough cheaper to drive the old firm out of business; and many a physician is daily finding his patients, long-time chronic invalids, unaccountably restored to health by the use of a new kidney specific. New fangled notions are sometimes very valuable, and it costs too much to foolishly reject them.

Weather Indications.

WASHINGTON, April 5. — *Indications for Saturday: Light rain, followed by fair weather, southerly winds.*

THE ELECTION OF 1892.

The New York *Press*, whose editor hopes to be Superintendent of the Census, discusses at considerable length the question of apportionment under the coming census. It admits the possibility of passing an apportionment bill by the present Congress at its closing session, 1890-91. It also admits that the fifty-third Congress, to be elected in 1892 or at the next Presidential election, can be chosen under that apportionment. But it is in doubt whether the election for President can proceed upon the same apportionment. We quote:

The apportionment, according to the eleventh census, even if agreed upon at the last session of the Fifty-first Congress, could not be made to apply to a Congress already elected (the Fifty-second Congress), and, therefore, it would go into force with the Fifty-third Congress, which will be elected November, 1892, at the same time as the Presidential ticket. The question may be reduced to this: Will the electoral vote be based on the actual Congressional representation of the Fifty-second Congress, which will exist until March 4, 1893, or can it be based upon the representation as apportioned for the Fifty-third Congress? In the absence of unquestioned legal authority on the subject the *Press* is inclined to think that the electoral vote must be based on the existing representation, and not on the representation to be voted for November, 1892.

This is a singular question to raise, and if the *Press* is right it may seriously affect the result. Thus Kansas will be less less helpful to the Republican party if permitted to choose only nine electors (her present number) than the twelve or thirteen to which her increase of population will entitle her. The four new states recently admitted are qualified to cast thirteen electoral votes, but the next census will probably raise the number to sixteen. That the denial to our rapidly growing states of their full rights in the Electoral Colleges on a mere technicality would be unjust the *Press* will undoubtedly admit.

The constitutional direction on the subject is brief, but seems to us explicit. Here is the section relating to the choosing of electors:

Each state shall appoint, in such manner as the Legislature thereof may direct, a number of electors equal to the whole number of Senators and Representatives to which the state may be entitled in the Congress.

The state will at the same election elect the number of Representatives "to which it is entitled in the Congress," under the new apportionment, and not under the old. Is it not equally entitled to a representation in proportion to its population in the electoral college? It is only necessary to cite a few precedents, and there are plenty of them in the history of the state of New York.

The second apportionment was made April 14, 1792, and it increased the representation of New York in the lower house of Congress from six to ten. The election of George Washington to a second term took place in the fall of the same year, and New York chose 12 electors who cast their votes for him. Again, an apportionment bill was passed December 21, 1811, which raised the representation of New York in the lower house from 17 to 27. The second election of James Madison took place in the fall of 1812, and at that election New York chose 29 electors, whose votes were cast for DeWitt Clinton for President. Another apportionment bill was passed May 22, 1832, which increased New York's representation in the lower house from 34 to 40. Andrew Jackson was elected President in the fall of the same year, and New York cast 42 electoral votes for him. The apportionment of February 2, 1872, raised New York's representation in the lower house from 31 to 33, and in the fall of the same year New York chose 35 electors who cast their votes for Gen. Grant. The only "failure to connect" in these twenty year periods was in 1852, when the apportionment bill was not passed until July 30th of that year. But according to these precedents it appears that the election of electors can take place upon the new apportionment, whether the bill is passed by the Congress in existence when the census is taken or the one succeeding it. They should serve to remove all doubt from the mind of the *Press* upon the subject.

BETTER DAYS FOR PENSIONERS.

A better temper is manifest already towards veterans who are seeking pensions. John P. Davis of Ohio, who was denied a dependent father's pension by the Democratic pension office, received a decision in his favor yesterday from Assistant Secretary Bussey. In 1863 Davis's son, while serving as a hospital nurse, took a swallow of tincture of aconite by mistake for brandy, a bottle of which was on the same table. He died years afterwards from disease of the lungs and all the vital organs, caused by the poison. The Democratic decision in this case was that the injury was not received in the line of duty, but was the result of the soldier's indiscretion. Soldiers may infer from the new decision that "indiscretion" is not going to bar them out. Nothing could be more unfair than to permit it to do so, for indiscretion, or rashness, was a very common failing among the rank and file. They were often guilty of it in the presence of the enemy, and hence were much more likely to get hurt than if they had acted on the rule that "discretion is the better part of valor." The private who answered a lecture from his Captain on his indiscretions with the remark that "you shouldn't expect to get all the cardinal virtues for $12 a month," stated a great principle. The boys fought for low wages because the government, with the risk of defeat before it, could not at the time afford to pay more. The government won a victory which brought to light its immense resources and made it the richest nation on the globe. The men who invested their lives in the enterprise are going to get their dividends now.

A LIE ON ITS TRAVELS.

Huston is the Chairman of the Indiana Republican State Committee to whom Dudley wrote his "floater" and "blocks of five" letter. The promotion of Judge Woods of the U. S. Court, who first instructed the grand jury that Dudley's offense was indictable, and then ruled that it was not, would be "peculiarly appropriate" also.—*Rochester Union.*

The above is a needless lie, and every intelligent Democratic newspaper in the country knows it to be such. The case of Dudley was before the packed Democratic grand jury of Indianapolis for three weeks. Explorations were made in every direction to find the man to whom the alleged letter was addressed, but nobody could be discovered who would swear that he had seen it. This tired grand jury took a long recess in hope that something would turn up, and then reassembled and started the hunt anew. Judge Woods told them that their work was useless so long as nobody had been bribed, and then they adjourned again. Once more the attempt was made to get an indictment "on information," but the information was lacking. The letter has never yet been seen, nor has anybody been found who dare swear that he received it. All that is known concerning it is the allegation of a Democratic newspaper that Dudley wrote a letter which it pretended to publish. Dudley promptly denounced it a forgery. Dudley could not be indicted without the letter, and if the letter ever existed it was in the hands of Democrats who feared to exhibit it. If they had done so an arrest for forgery would have followed so quickly as to make their heads swim. Democrats forged a letter which they published and charged upon Dudley. But they did not give the document out or produce fac similes of it as was done with the Morey forgery. They are simply content to pass the lonesome lie around, on the idea that if persisted in somebody will believe it. It is the last Democratic lie of the season, all others having been worn out and abandoned. Huston knows no more about the letter than the editor of the Rochester *Union* himself, but it has evidently become necessary to associate some Republican with Dudley as the recipient, or the absurd lie can be carried no further. The election is over, and Democrats can afford to be decent. And with their past bitter experience at lying and forgery, they ought to have learned that it pays to be truthful.

PUBLIC OPINION.

Stanley has earned the title of the greatest explorer of the age, in having newly discovered himself.—*Albany Times.*

A Milk Trust was about to be formed in Wisconsin, but when it occurred to the dealers that there was no way to "corner" the water part of it, the project was abandoned. —*Brooklyn Standard-Union.*

The son of the Old Roman is suggested as a suitable candidate of the Ohio Democracy for Governor. If the Democrats begin to take up the sons of their fathers one of the biggest guns of their organs will be spiked.—*Rochester Herald.*

Some regret is expressed by the Democracy now because Mr. Cleveland did not, like President Harrison, reward the brainy men in his party. Mr. Cleveland used all he could catch. The scarcity of the material was what troubled him.—*Albany Journal.*

Murat Halstead don't want to go to Germany. In the first place he is not conversant with the language; then again he can't drink beer, and last but not least, the Senate failed to confirm his nomination. But Halstead got even in a lengthy editorial.—*Wichita Journal.*

You never knew, did you, that it was narrowed down to Secretary Tracy and our own William H. Seward and yet such was the case. Brooklyn people made it too lively for Auburn and one of the most conservative of men is still conducting a safe banking business.—*Auburn Advertiser.*

Judge Daniels of Buffalo, N. Y., recently refused to give a man naturalization papers because he was a drunkard and a wife-beater. This should be a precedent for the judiciary of the nation. The country does not need such citizens, and those of the kind now in the country should be disfranchised.—*Chicago Journal.*

There are suspicious indications of a short peach crop this year. These indications consist of the failure to put in an appearance of the annual announcement that the peach crop has been ruined by an ice storm. A ruinous ice storm seems to be one of the indispensable conditions for a large peach crop.—*Binghamton Republican.*

The Republicans have made several very successful demonstrations this week of the fact that the national Republican victory in the fall of 1888 will not carry elections in the spring of 1889, unless the Republicans nominate tickets that they are prepared to vote and fight for.—*Springfield Union.*

Mr. Wilson, West Virginia's "holdover" Governor, made some remarks in a Charleston grocery store last night which were considered indecorous, whereupon the groceryman seized the dignitary by the scruff of his neck and slack of his nether garment and chucked him out in the wet. That groceryman, it would appear, is far less dilatory in needful movements than the Supreme Court of the state in which he lives.—*Troy Times.*

SPECIAL BUSINESS NOTICES.

What's the sense in saying that Catarrh cannot be cured when Dr. Sage's Catarrh Remedy is so sure and positively certain that the proprietors offer $5 0 reward for a case of Catarrh which they cannot cure. A full pint of the medicine is made by dissolving one fifty-cent package of the powder in water. Sold by druggists; 50 cents.

IT IS A CURIOUS FACT

That the body is now more susceptible to benefit from medicine than any other season. Hence the importance of taking Hood's Sarsaparilla now, when it will do you the most good. It is really wonderful for purifying and enriching the blood, creating an appetite, and giving a healthy tone to the whole system. Be sure to get Hood's Sarsaparilla, which is peculiar to itself.

FEMALE BEAUTY.

It is a fortunate thing that all men do not have the same taste in female beauty, for otherwise they would all fall in love with the same woman, which would be awkward. Although the preferences of men for different style of form and feature vary greatly, it is undoubtedly a fact that a face indicative of health is pleasing to all alike. A woman may be without regular features, yet, if healthy, she will be beautiful to some one and pleasing to all. A sallow complexion, a dull eye, a system debilitated by unnatural discharges, in short, all the ills attendant upon the irregularities and "weaknesses" peculiar to the sex, can be banished by the use of Dr. Pierce's Favorite Prescription. Ask your druggist.

INTERESTED PEOPLE.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does it is indeed wonderful. It may save you from consumption.

THEIR BUSINESS BOOMING.

Probably no one thing has caused such a general revival of trade at VanDeusen Bros., Rondout, and F. J. R. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size $1. Every bottle warranted.

FOR WOMEN.

Are you wasting slowly but surely away from the effects of female weaknesses? Are you wan, pale, and nervous? Do you not sometimes feel that life is losing its attractions, and that you are gradually sinking into a decline which, if not taken in hand promptly, will end in an early death? Yes, you have felt all these things, and doubtless know that tens of thousands of once rosy cheeked, plump, healthy girls and women go into their graves every year solely because these weaknesses were allowed to sap up the well springs of life till nature could no longer stand the strain. There is not a sensible maid, wife or mother who will not appreciate as more valuable than gold and precious stones Dr Fontaine's new remedy PALMETTO, which is safe, sure, and speedy in curing the worst case of female weakness.

Mailed secure from observation on receipt of $1.00 I also have a full line of elegant Toilet Goods, in cluding Face Cream and Jellies, Wrinkle Paste Fattening Formula, Auburnine, Depilatory, Acnine, Freckle Lotion, etc. Development of a beautiful form a specialty. Sealed circulars, 4 cents.

WASHINGTON, April 5. — *Indications for Saturday: Light rain, followed by fair weather, southerly winds.*

THE ELECTION OF 1892.

The New York *Press*, whose editor hopes to be Superintendent of the Census, discusses at considerable length the question of apportionment under the coming census. It admits the possibility of passing an apportionment bill by the present Congress at its closing session, 1890-91. It also admits that the fifty-third Congress, to be elected in 1892 or at the next Presidential election, can be chosen under that apportionment. But it is in doubt whether the election for President can proceed upon the same apportionment. We quote:

The apportionment, according to the eleventh census, even if agreed upon at the last session of the Fifty-first Congress, could not be made to apply to a Congress already elected (the Fifty-second Congress), and, therefore, it would go into force with the Fifty-third Congress, which will be elected November, 1892, at the same time as the Presidential ticket. The question may be reduced to this: Will the electoral vote be based on the actual Congressional representation of the Fifty-second Congress, which will exist until March 4, 1893, or can it be based upon the representation as apportioned for the Fifty-third Congress? In the absence of unquestioned legal authority on the subject the *Press* is inclined to think that the electoral vote must be based on the existing representation, and not on the representation to be voted for November, 1892.

This is a singular question to raise, and if the *Press* is right it may seriously affect the result. Thus Kansas will be less less helpful to the Republican party if permitted to choose only nine electors (her present number) than the twelve or thirteen to which her increase of population will entitle her. The four new states recently admitted are qualified to cast thirteen electoral votes, but the next census will probably raise the number to sixteen. That the denial to our rapidly growing states of their full rights in the Electoral Colleges on a mere technicality would be unjust the *Press* will undoubtedly admit.

The constitutional direction on the subject is brief, but seems to us explicit. Here is the section relating to the choosing of electors:

Each state shall appoint, in such manner as the Legislature thereof may direct, a number of electors equal to the whole number of Senators and Representatives to which the state may be entitled in the Congress.

The state will at the same election elect the number of Representatives "to which it is entitled in the Congress," under the new apportionment, and not under the old. Is it not equally entitled to a representation in proportion to its population in the electoral college? It is only necessary to cite a few precedents, and there are plenty of them in the history of the state of New York.

The second apportionment was made April 14, 1792, and it increased the representation of New York in the lower house of Congress from six to ten. The election of George Washington to a second term took place in the fall of the same year, and New York chose 12 electors who cast their votes for him. Again, an apportionment bill was passed December 21, 1811, which raised the representation of New York in the lower house from 17 to 27. The second election of James Madison took place in the fall of 1812, and at that election New York chose 29 electors, whose votes were cast for DeWitt Clinton for President. Another apportionment bill was passed May 22, 1832, which increased New York's representation in the lower house from 34 to 40. Andrew Jackson was elected President in the fall of the same year, and New York cast 42 electoral votes for him. The apportionment of February 2, 1872, raised New York's representation in the lower house from 31 to 33, and in the fall of the same year New York chose 35 electors who cast their votes for Gen. Grant. The only "failure to connect" in these twenty year periods was in 1852, when the apportionment bill was not passed until July 30th of that year. But according to these precedents it appears that the election of electors can take place upon the new apportionment, whether the bill is passed by the Congress in existence when the census is taken or the one succeeding it. They should serve to remove all doubt from the mind of the *Press* upon the subject.

BETTER DAYS FOR PENSIONERS.

A better temper is manifest already towards veterans who are seeking pensions. John P. Davis of Ohio, who was denied a dependent father's pension by the Democratic pension office, received a decision in his favor yesterday from Assistant Secretary Bussey. In 1863 Davis's son, while serving as a hospital nurse, took a swallow of tincture of aconite by mistake for brandy, a bottle of which was on the same table. He died years afterwards from disease of the lungs and all the vital organs, caused by the poison. The Democratic decision in this case was that the injury was not received in the line of duty, but was the result of the soldier's indiscretion. Soldiers may infer from the new decision that "indiscretion" is not going to bar them out. Nothing could be more unfair than to permit it to do so, for indiscretion, or rashness, was a very common failing among the rank and file. They were often guilty of it in the presence of the enemy, and hence were much more likely to get hurt than if they had acted on the rule that "discretion is the better part of valor." The private who answered a lecture from his Captain on his indiscretions with the remark that "you shouldn't expect to get all the cardinal virtues for $12 a month," stated a great principle. The boys fought for low wages because the government, with the risk of defeat before it, could not at the time afford to pay more. The government won a victory which brought to light its immense resources and made it the richest nation on the globe. The men who invested their lives in the enterprise are going to get their dividends now.

A LIE ON ITS TRAVELS.

Huston is the Chairman of the Indiana Republican State Committee to whom Dudley wrote his "floater" and "blocks of five" letter. The promotion of Judge Woods of the U. S. Court, who first instructed the grand jury that Dudley's offense was indictable, and then ruled that it was not, would be "peculiarly appropriate" also.—*Rochester Union.*

The above is a needless lie, and every intelligent Democratic newspaper in the country knows it to be such. The case of Dudley was before the packed Democratic grand jury of Indianapolis for three weeks. Explorations were made in every direction to find the man to whom the alleged letter was addressed, but nobody could be discovered who would swear that he had seen it. This tired grand jury took a long recess in hope that something would turn up, and then reassembled and started the hunt anew. Judge Woods told them that their work was useless so long as nobody had been bribed, and then they adjourned again. Once more the attempt was made to get an indictment "on information," but the information was lacking. The letter has never yet been seen, nor has anybody been found who dare swear that he received it. All that is known concerning it is the allegation of a Democratic newspaper that Dudley wrote a letter which it pretended to publish. Dudley promptly denounced it a forgery. Dudley could not be indicted without the letter, and if the letter ever existed it was in the hands of Democrats who feared to exhibit it. If they had done so an arrest for forgery would have followed so quickly as to make their heads swim. Democrats forged a letter which they published and charged upon Dudley. But they did not give the document out or produce fac similes of it as was done with the Morey forgery. They are simply content to pass the lonesome lie around, on the idea that if persisted in somebody will believe it. It is the last Democratic lie of the season, all others having been worn out and abandoned. Huston knows no more about the letter than the editor of the Rochester *Union* himself, but it has evidently become necessary to associate some Republican with Dudley as the recipient, or the absurd lie can be carried no further. The election is over, and Democrats can afford to be decent. And with their past bitter experience at lying and forgery, they ought to have learned that it pays to be truthful.

PUBLIC OPINION.

Stanley has earned the title of the greatest explorer of the age, in having newly discovered himself.—*Albany Times.*

A Milk Trust was about to be formed in Wisconsin, but when it occurred to the dealers that there was no way to "corner" the water part of it, the project was abandoned. —*Brooklyn Standard-Union.*

The son of the Old Roman is suggested as a suitable candidate of the Ohio Democracy for Governor. If the Democrats begin to take up the sons of their fathers one of the biggest guns of their organs will be spiked.—*Rochester Herald.*

Some regret is expressed by the Democracy now because Mr. Cleveland did not, like President Harrison, reward the brainy men in his party. Mr. Cleveland used all he could catch. The scarcity of the material was what troubled him.—*Albany Journal.*

Murat Halstead don't want to go to Germany. In the first place he is not conversant with the language; then again he can't drink beer, and last but not least, the Senate failed to confirm his nomination. But Halstead got even in a lengthy editorial.—*Wichita Journal.*

You never knew, did you, that it was narrowed down to Secretary Tracy and our own William H. Seward and yet such was the case. Brooklyn people made it too lively for Auburn and one of the most conservative of men is still conducting a safe banking business.—*Auburn Advertiser.*

Judge Daniels of Buffalo, N. Y., recently refused to give a man naturalization papers because he was a drunkard and a wife-beater. This should be a precedent for the judiciary of the nation. The country does not need such citizens, and those of the kind now in the country should be disfranchised.—*Chicago Journal.*

There are suspicious indications of a short peach crop this year. These indications consist of the failure to put in an appearance of the annual announcement that the peach crop has been ruined by an ice storm. A ruinous ice storm seems to be one of the indispensable conditions for a large peach crop.—*Binghamton Republican.*

The Republicans have made several very successful demonstrations this week of the fact that the national Republican victory in the fall of 1888 will not carry elections in the spring of 1889, unless the Republicans nominate tickets that they are prepared to vote and fight for.—*Springfield Union.*

Mr. Wilson, West Virginia's "holdover" Governor, made some remarks in a Charleston grocery store last night which were considered indecorous, whereupon the groceryman seized the dignitary by the scruff of his neck and slack of his nether garment and chucked him out in the wet. That groceryman, it would appear, is far less dilatory in needful movements than the Supreme Court of the state in which he lives.—*Troy Times.*

SPECIAL BUSINESS NOTICES.

What's the sense in saying that Catarrh cannot be cured when Dr. Sage's Catarrh Remedy is so sure and positively certain that the proprietors offer $5 0 reward for a case of Catarrh which they cannot cure. A full pint of the medicine is made by dissolving one fifty-cent package of the powder in water. Sold by druggists; 50 cents.

IT IS A CURIOUS FACT

That the body is now more susceptible to benefit from medicine than any other season. Hence the importance of taking Hood's Sarsaparilla now, when it will do you the most good. It is really wonderful for purifying and enriching the blood, creating an appetite, and giving a healthy tone to the whole system. Be sure to get Hood's Sarsaparilla, which is peculiar to itself.

FEMALE BEAUTY.

It is a fortunate thing that all men do not have the same taste in female beauty, for otherwise they would all fall in love with the same woman, which would be awkward. Although the preferences of men for different style of form and feature vary greatly, it is undoubtedly a fact that a face indicative of health is pleasing to all alike. A woman may be without regular features, yet, if healthy, she will be beautiful to some one and pleasing to all. A sallow complexion, a dull eye, a system debilitated by unnatural discharges, in short, all the ills attendant upon the irregularities and "weaknesses" peculiar to the sex, can be banished by the use of Dr. Pierce's Favorite Prescription. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Are you wasting slowly but surely away from the effects of female weaknesses? Are you wan, pale, and nervous? Yes, you have felt all these things, and doubtless know that tens of thousands of once rosy cheeked, plump, healthy girls and women go into their graves every year solely because these weaknesses were allowed to sap up the well springs of life till nature could no longer stand the strain. ★ BRIGHT'S DISEASE. ★

A Ten-Year-Old Child Saved After the Failure of Four Physicians.

My little girl, ten years of age, was taken sick in March, 1888, with scarlet fever. When recovering she took a severe cold, which developed Bright's Disease of the Kidneys. Her ankles, feet and eyes were terribly swollen, she had a burning fever, and all the symptoms of an aggravated case of Bright's Disease. Four of our best physicians attended her, but without success, and

Her Life was Despaired of.

But a mother's love and prayers surmount all difficulties, and I determined to try Dr. David Kennedy's Favorite Remedy, made at Rondout, N. Y. This was a last resort, and I hoped, although my ittle daughter's case was a very severe one, that the Favorite Remedy would do for her what it had done for others whose condition had not been, seemingly, as hopeless. How happy I am that I determined upon this course—for an improvement was at once perceptible. The fever left her—her appetite improved—she gained six pounds in a short time, and one by one the well known and dreaded symptoms of the disease left her. Words fail to express my gratitude and I cannot too earnestly recommend he Favorite Remedy. It was

A MARVELOUS RECOVERY

and is due entirely to the Favorite Remedy, which was the only medicine taken after her case was abandoned by the physicians.

Mrs. Laura A. Kempton, West Rutland, Vermont.

The diseases that follow Scarlet Fever, Measles, Diphtheria and various other complaints often leave behind them sequellas of the most obstinate and dangerous character. To expel all traces of such disorders, tone up the various organs, and fill the veins with pure and nutritious blood, use

THE OKLAHOMA SITUATION.

THE OUTLOOK FOR COUNTRY AND BOOMERS IS NOT ARCADIAN.

Contests Settled at First by Winchesters Will Afterwards Have to be Settled In the Courts—Silver Quartz Discovered in Iowa.

By Telegraph to The Freeman.

TOPEKA, Kans., April 5.—The State Railroad Assessors, who have just returned from Oklahoma, report army officers as saying that thousands of boomers are still concealed in the brush, and that if the whole United States Army was there it could not drive them out. Names are taken, but they are nearly all fictitious. Captain Woodson and Lieutenant Carson are in receipt of telegraphic orders daily to have horses saddled and bridled and in waiting on the arrival of trains at Oklahoma City on April 22, at noon. The object is to mount at once and by fleet steeds distance rival boomers on foot, and capture choice claims. A party of four Hoosiers with a balloon are camped near Antelope Hills. They will make an ascent on the morning of April 22, drift in mid air till noon and then descend hours in advance of teams and horses. The excitement is increasing daily and all Southern Kansas is ablaze. The Assessors think Oklahoma is not what it has been painted. The soil is red and the land is good chiefly for hay and cotton. Settlers taking claims will find it difficult to describe the same when they go to the Land Office to make a filing owing to the lack of surveys, and this will give rise to innumerable contests. More will grow out of the filings by boomers who stayed in the country against the President's orders and will come out of the timber on April 22. Contests settled at first by Winchesters will afterwards have to be settled in the courts. The outlook for the country and the boomers is not arcadian by any means.

SILVER QUARTZ DISCOVERED IN IOWA.

Jewelers Pronounce It Richer Than Any Ever Examined by Them.

By Telegraph to The Freeman.

FORT DODGE, Ia., April 5.—There is considerable excitement here over the reported discovery of silver on the farm of Peter Kearon, six miles north of this City. The find was made by a well-digger at the depth of 110 feet. The vein is 54 inches thick. Jewelers pronounce the quartz richer than any ever examined by them. Pieces have been sent to a Chicago assayers for examination.

BLOODSHED FEARED IN STATE OF IOWA.

Armed Mob Drive a Posse of Marshals from the River Lands.

By Telegraph to The Freeman.

FORT DODGE, Ia., April 5.—The posse of Marshals who went into the country to make evictions from the river lands were met at Homer yesterday by an armed mob of settlers and driven from the field. The posse fled to Webster City, where they took a train for Dubuque. It is supposed they will return with a larger force and it is feared the trouble will result in bloodshed.

PREPARING FOR SAMOAN CONFERENCE

By Telegraph to The Freeman.

THE IVORY WORTH 3,000,000 FRANCS.

Stanley and Emin Pasha are Believed to be Marching on Zanzibar.

By Cable to The Freeman.

BRUSSELS, April 5.—The report that Henry M. Stanley and Emin Pasha were marching toward Zanzibar is believed in official circles here. Surprise is expressed, however, that Emin should have abandoned the Lake Provinces. The ivory in possession of the party is estimated to be worth 3,000,000 francs.

An Engineer Murdered.

By Telegraph to The Freeman.

CHARLESTON, W. Va., April 5.—Thomas Washington, aged 14, murdered Edward Spriggles, an engineer on the coal road of the Pioneer Coal Company, Wednesday night. Washington had been riding on the engine and was put off by the engineer. He secured a pump handle, and sneaking up behind Spreggles struck him on the head repeatedly, fracturing his skull in six places. Washington is in jail.

SPECIAL BUSINESS NOTICES.

EPOCH.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory, and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alterative and Tonic. If you are troubled with any disease of Kidneys, Liver or Stomach, of long or short standing, you will surely find relief by use of Electric Bitters. Sold at 50 cents and $1 per bottle, at VanDeusen Brothers', Rondout, and F. J. R. Clarke's, Kingston.

TO-NIGHT AND TO-MORROW NIGHT,

And each day and night during this week you can get at all druggists Kemp's Balsam for the Throat and Lungs, acknowledged to be the most successful remedy ever sold for the cure of Coughs, Croup, Bronchitis, Whooping Cough, Asthma, and Consumption. Get a bottle to-day and keep it always in the house, so you can check your cold at once. Price 50 cents and $1.00. Sample bottles free.

PILES! PILES! ITCHING PILES.

Symptoms—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cent. Dr. Swayne & Son, Philadelphia.

ARE YOU MADE miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Yellow Skin Shiloh's Vitalizer is a positive cure. Sold by Frederick J. R. Clark.

CURABILITY OF CONSUMPTION.

This has been a vexed question among physicians, opinions, even in the same school, being strangely divergent. Of this, however, the public are convinced: it is a terribly prevalent disease, and the average doctor meets with but scant success in treating it. Consumption is in reality scrofula of the lungs, and is liable to attack any whose blood is tainted. For driving out the scrofulous humors, and thus removing the predisposing cause, Dr. Pierce's Golden Medical Discovery is a sovereign remedy. It purifies the bad blood, heals scrofulous ulcers, and, whatever differences of opinion exists as to curing advanced cases of consumption, it remains that many pronounced "incurable" have been by it brought back from the brink of the grave to restored health and vigor.

NO OTHER

As good. This is the statement of Professor Smith, Analytical Chemist: I have analyzed all of the popular blood purifiers and medicines now sold. Many of them I found to be worthless, some dangerous to use. Sulphur Bitters contains nothing poisonous, and I think it is the best blood purifier made.

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them.

SHILOH'S CATARRH REMEDY—A positive cure for Catarrh, Diphtheria and Canker Mouth. Sold by Frederick J. R. Clark.

"When the spring-time comes," we usually find ourselves drowsy and exhausted, owing to the impure and sluggish state of the blood. To remedy this trouble take Ayer's Sarsaparilla, the most powerful, yet safe and economical blood-purifier in existence.

"THE TABLE ROBS MORE THAN THE THIEF."

Over-indulgence at the table robs many a one of good health, and without health life is not worth living. Little Hop Pills always cure such excesses and regulate the liver. All druggists sell them. Try. Judge.

The body is more susceptible to benefit from Hood's Sarsaparilla now than at any other season. Therefore take it now.

BUCKLEN'S ARNICA SALVE.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by VanDeusen Bros., Rondout, and F. J. R. Clarke, Kingston.

WHY WILL YOU cough when Shiloh's Cure will give immediate relief. Price 10 cts., 50 cts. and $1. Sold by Frederick J. R. Clark.

ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind-colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

COMMON AIR.

The breath of life is conveyed to every part of the human lungs by means of a system of fine vessels called the bronchial tubes. When these are clogged up by an accumulation of mucous, so that breathing is very difficult, especially after any exertion, a person has the leading symptoms of Asthma or Phthisic. Besides this the tubes are often reduced to much less than their natural diameter by spasmodic contraction; often nearly suffocating the sufferer. Whether the case is of long standing or not. Dr. David Kennedy's Cherry Balsam is the most efficacious known remedy. It at once loosens the mucous matter, and causes it to be ejected by a free and easy expectoration. The Balsam in such cases should be taken in larger doses than for a common Cough, and no harm is done if some vomiting results. Take particular notice that if the disease is complicated with a dyspeptic state of the stomach Kennedy's Favorite Remedy must be used to correct the digestion. The case must be very severe that will not rapidly improve under this treatment.

WILL YOU SUFFER with Dyspepsia and Liver Complaint? Shiloh's Vitalizer is guaranteed to cure you. For sale by F. J. R. Clarke, Kingston.

PNEUMONIA, THE MOST DANGEROUS

of all acute attacks, prevented by the use of the great Hoxsie preparations. The greatest remedies in the world, for Lung and Throat Troubles. 25 cts.

You feel like giving up, your back pains you so? Apply a Hop Plaster—infallible!

For three weeks I was suffering from a severe cold in my head, accompanied by a pain in the temples. I tried some of the many catarrh remedies without any relief. Ely's Cream Balm was recommended to me. After only six applications of the Balm every trace of my cold was removed.—Henry C. Clark, 1st Division New-York Appraiser's Office.

For several years I have been troubled with catarrh. Ely's Cream Balm has proved to be the article desired. I believe it the only cure.—L. B. Coburn, Merchant, Towanda, Pa.

★ BRIGHT'S DISEASE. ★

A Ten-Year-Old Child Saved After the Failure of Four Physicians.

My little girl, ten years of age, was taken sick in March, 1888, with scarlet fever. When recovering she took a severe cold, which developed Bright's Disease of the Kidneys. Her ankles, feet and eyes were terribly swollen, she had a burning fever, and all the symptoms of an aggravated case of Bright's Disease. Four of our best physicians attended her, but without success, and

Her Life was Despaired of.

But a mother's love and prayers surmount all difficulties, and I determined to try Dr. David Kennedy's Favorite Remedy, made at Rondout, N. Y. This was a last resort, and I hoped, although my ittle daughter's case was a very severe one, that the Favorite Remedy would do for her what it had done for others whose condition had not been, seemingly, as hopeless. How happy I am that I determined upon this course—for an improvement was at once perceptible. The fever left her—her appetite improved—she gained six pounds in a short time, and one by one the well known and dreaded symptoms of the disease left her. Words fail to express my gratitude and I cannot too earnestly recommend he Favorite Remedy. It was

A MARVELOUS RECOVERY

and is due entirely to the Favorite Remedy, which was the only medicine taken after her case was abandoned by the physicians.

Mrs. Laura A. Kempton, West Rutland, Vermont.

The diseases that follow Scarlet Fever, Measles, Diphtheria and various other complaints often leave behind them sequellas of the most obstinate and dangerous character. To expel all traces of such disorders, tone up the various organs, and fill the veins with pure and nutritious blood, use

THE OKLAHOMA SITUATION.

THE OUTLOOK FOR COUNTRY AND BOOMERS IS NOT ARCADIAN.

Contests Settled at First by Winchesters Will Afterwards Have to be Settled In the Courts—Silver Quartz Discovered in Iowa.

By Telegraph to The Freeman.

TOPEKA, Kans., April 5.—The State Railroad Assessors, who have just returned from Oklahoma, report army officers as saying that thousands of boomers are still concealed in the brush, and that if the whole United States Army was there it could not drive them out. Names are taken, but they are nearly all fictitious. Captain Woodson and Lieutenant Carson are in receipt of telegraphic orders daily to have horses saddled and bridled and in waiting on the arrival of trains at Oklahoma City on April 22, at noon. The object is to mount at once and by fleet steeds distance rival boomers on foot, and capture choice claims. A party of four Hoosiers with a balloon are camped near Antelope Hills. They will make an ascent on the morning of April 22, drift in mid air till noon and then descend hours in advance of teams and horses. The excitement is increasing daily and all Southern Kansas is ablaze. The Assessors think Oklahoma is not what it has been painted. The soil is red and the land is good chiefly for hay and cotton. Settlers taking claims will find it difficult to describe the same when they go to the Land Office to make a filing owing to the lack of surveys, and this will give rise to innumerable contests. More will grow out of the filings by boomers who stayed in the country against the President's orders and will come out of the timber on April 22. Contests settled at first by Winchesters will afterwards have to be settled in the courts. The outlook for the country and the boomers is not arcadian by any means.

SILVER QUARTZ DISCOVERED IN IOWA.

Jewelers Pronounce it Richer Than Any Ever Examined by Them.

By Telegraph to The Freeman.

FORT DODGE, Ia., April 5.—There is considerable excitement here over the reported discovery of silver on the farm of Peter Kearon, six miles north of this City. The find was made by a well-digger at the depth of 110 feet. The vein is 54 inches thick. Jewelers pronounce the quartz richer than any ever examined by them. Pieces have been sent to a Chicago assayers for examination.

BLOODSHED FEARED IN STATE OF IOWA.

Armed Mob Drive a Posse of Marshals from the River Lands.

By Telegraph to The Freeman.

FORT DODGE, Ia., April 5.—The posse of Marshals who went into the country to make evictions from the river lands were met at Homer yesterday by an armed mob of settlers and driven from the field. The posse fled to Webster City, where they took a train for Dubuque. It is supposed they will return with a larger force and it is feared the trouble will result in bloodshed.

PREPARING FOR SAMOAN CONFERENCE

American Commissioners will Sail for Europe on Umbria on April 13.

By Telegraph to The Freeman.

WASHINGTON, April 5.—The American Commissioners to the Samoan Conference have engaged passage for Europe on the Umbria, which sails from New-York April 13. Meanwhile they are frequently at the Department of State consulting with the officials and studying the protocols of the last conference.

THE IVORY WORTH 3,000,000 FRANCS.

Stanley and Emin Pasha are Believed to be Marching on Zanzibar.

By Cable to The Freeman.

BRUSSELS, April 5.—The report that Henry M. Stanley and Emin Pasha were marching toward Zanzibar is believed in official circles here. Surprise is expressed, however, that Emin should have abandoned the Lake Provinces. The ivory in possession of the party is estimated to be worth 3,000,000 francs.

An Engineer Murdered.

By Telegraph to The Freeman.

CHARLESTON, W. Va., April 5.—Thomas Washington, aged 14, murdered Edward Spriggles, an engineer on the coal road of the Pioneer Coal Company, Wednesday night. Washington had been riding on the engine and was put off by the engineer. He secured a pump handle, and sneaking up behind Spreggles struck him on the head repeatedly, fracturing his skull in six places. Washington is in jail.

SPECIAL BUSINESS NOTICES.

EPOCH.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory, and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alterative and Tonic. If you are troubled with any disease of Kidneys, Liver or Stomach, of long or short standing, you will surely find relief by use of Electric Bitters. Sold at 50 cents and $1 per bottle, at VanDeusen Brothers', Rondout, and F. J. R. Clarke's, Kingston.

TO-NIGHT AND TO-MORROW NIGHT,

And each day and night during this week you can get at all druggists Kemp's Balsam for the Throat and Lungs, acknowledged to be the most successful remedy ever sold for the cure of Coughs, Croup, Bronchitis, Whooping Cough, Asthma, and Consumption. Get a bottle to-day and keep it always in the house, so you can check your cold at once. Price 50 cents and $1.00. Sample bottles free.

PILES! PILES! ITCHING PILES.

Symptoms—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cent. Dr. Swayne & Son, Philadelphia.

ARE YOU MADE miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Yellow Skin Shiloh's Vitalizer is a positive cure. Sold by Frederick J. R. Clark.

CURABILITY OF CONSUMPTION.

This has been a vexed question among physicians, opinions, even in the same school, being strangely divergent. Of this, however, the public are convinced: it is a terribly prevalent disease, and the average doctor meets with but scant success in treating it. Consumption is in reality scrofula of the lungs, and is liable to attack any whose blood is tainted. For driving out the scrofulous humors, and thus removing the predisposing cause, Dr. Pierce's Golden Medical Discovery is a sovereign remedy. It purifies the bad blood, heals scrofulous ulcers, and, whatever differences of opinion exists as to curing advanced cases of consumption, it remains that many pronounced "incurable" have been by it brought back from the brink of the grave to restored health and vigor.

NO OTHER

As good. This is the statement of Professor Smith, Analytical Chemist: I have analyzed all of the popular blood purifiers and medicines now sold. Many of them I found to be worthless, some dangerous to use. Sulphur Bitters contains nothing poisonous, and I think it is the best blood purifier made.

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them.

SHILOH'S CATARRH REMEDY—A positive cure for Catarrh, Diphtheria and Canker Mouth. Sold by Frederick J. R. Clark.

"When the spring-time comes," we usually find ourselves drowsy and exhausted, owing to the impure and sluggish state of the blood. To remedy this trouble take Ayer's Sarsaparilla, the most powerful, yet safe and economical blood-purifier in existence.

"THE TABLE ROBS MORE THAN THE THIEF."

Over-indulgence at the table robs many a one of good health, and without health life is not worth living. Little Hop Pills always cure such excesses and regulate the liver. All druggists sell them. Try. Judge.

The body is more susceptible to benefit from Hood's Sarsaparilla now than at any other season. Therefore take it now.

BUCKLEN'S ARNICA SALVE.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by VanDeusen Bros., Rondout, and F. J. R. Clarke, Kingston.

WHY WILL YOU cough when Shiloh's Cure will give immediate relief. Price 10 cts., 50 cts. and $1. Sold by Frederick J. R. Clark.

ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind-colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

COMMON AIR.

The breath of life is conveyed to every part of the human lungs by means of a system of fine vessels called the bronchial tubes. When these are clogged up by an accumulation of mucous, so that breathing is very difficult, especially after any exertion, a person has the leading symptoms of Asthma or Phthisic. Besides this the tubes are often reduced to much less than their natural diameter by spasmodic contraction; often nearly suffocating the sufferer. Whether the case is of long standing or not. Dr. David Kennedy's Cherry Balsam is the most efficacious known remedy. It at once loosens the mucous matter, and causes it to be ejected by a free and easy expectoration. The Balsam in such cases should be taken in larger doses than for a common Cough, and no harm is done if some vomiting results. Take particular notice that if the disease is complicated with a dyspeptic state of the stomach Kennedy's Favorite Remedy must be used to correct the digestion. The case must be very severe that will not rapidly improve under this treatment.

For three weeks I was suffering from a severe cold in my head, accompanied by a pain in the temples. I tried some of the many catarrh remedies without any relief. Ely's Cream Balm was recommended to me. After only six applications of the Balm every trace of my cold was removed.—Henry C. Clark, 1st Division New-York Appraiser's Office.

For several years I have been troubled with catarrh. Ely's Cream Balm has proved to be the article desired. I believe it the only cure.—L. B. Coburn, Merchant, Towanda, Pa.

THE MORTUARY RECORD.

PEOPLE WHO HAVE PASSED OVER TO SILENT MAJORITY.

Demise of Mrs. Cornelia Perkins, of Rondout, and George W. Shaw, of Kingston, Last Evening—Death of a Steamboat Pilot.

Stephen Haskins died recently at Stockport, aged 64 years. He was buried with Masonic honors.

John Bradt, late pilot of the steamboat Niagara of the Schuyler Line, died suddenly of epilepsy in Troy on Tuesday. His age was 65.

Alexander Parsell, pilot of the ferry-boat Transport, died last night. Mr. Parsell was at one time pilot of the steamboat W. B. Crane, plying between this City and Eddyville. He had been ill for a long time. Recently he went to Kyserike, Ulster County. Mr. Parsell was well known among Hudson River boatmen. Flags were displayed at half-mast, to-day, on the propellers and steamboats of the Cornell Steamboat Company, in honor to the memory of the deceased. The remains will be brought to Port-Ewen for interment.

Mrs. Cornelia Perkins, wife of the late Dr. E. K. Perkins, of Rondout, died last evening. Mrs. Perkins was about 76 years of age. She came to Rondout about 30 years ago. She was born in Barnegat, Dutchess County, in 1813. Her father was Arthur Daborn, a farmer. From there she removed to Highland, Columbia County, where she married Dr. Perkins, two years afterward. Later on she removed to Rondout, where she spent the remainder of her life. She was a Christian woman and was a member of the Wurts-Street Baptist Church. The funeral will occur to-morrow afternoon, from the family residence, on Abeel-street.

George W. Shaw, of Kingston, died last night. He was about 40 years old. Mr. Shaw was the son of the late Smith A. Shaw. He was a member of the Albany-Avenue Baptist Church, and also a member of Franklin Lodge, Knights of Pythias. He was unmarried and lived with his sister, Miss Mary E. Shaw, on Clinton-avenue. While at work on North-Front-street about a week ago he was suddenly attacked with a paralytic stroke and for some time was insensible. Yesterday he was able to be around the house. When the fire bell at the Clinton-Avenue Engine House rang last night, he became excited, fell into a convulsion and expired in a few minutes. The funeral will take place from the family residence Sunday afternoon at 3 o'clock. Interment Monday at Hudson.

PREPARING FOR AN EXHIBITION.

What Students of Ulster Academy, Rondout, are Doing.

The students of Ulster Academy, Rondout, are making prepartions for a patriotic exhibition to be given on April 30, in connection with the Centennial Celebration at that time. It is intended to make the occasion one of especial interest, and one that shall foster a spirit of patriotism and love of country. The scholars are showing a commendable degree of enthusiasm in regard to the exhibition. The attendance at Ulster Academy is steadily increasing. Among the recent additions to the Academic Department are three scholars from Ponckhockie, two from Port-Ewen, two from New-Salem and one from Ulster Park. The number of non-resident pupils now in attendance is 68. The members of the present Senior class are beginning to make preparations for graduating in June. They have adopted as their class motto the following: *Palma non sine pulvere.*

FELL FROM THE TOP OF PILE DRIVER.

A Rondout Man's Accident—Is in a Critical Condition.

At about 5 o'clock yesterday afternoon a young man named James English, of Rondout, narrowly escaped being killed outright. He was at work on a pile driver near Overbaugh's brick-yard, East-Kingston, and he had occasion to go to the top of the leaders. Suddenly the other workmen heard a thud upon the deck of the driver. It was English. He had fallen a distance of about 38 feet. He was picked up in an unconscious condition and carried to his home on Union-avenue. Dr. George C. Smith was summoned. It was found that the young man's skull was fractured. His right wrist is probably broken, and he is believed to have sustained internal injuries. During last night much blood flowed from his ears. To-day English's condition was considered critical. He was in a state of semi-consciousness.

Johanna Lives in Harlem.

A New-York lady, who is visiting in Rondout, went to Ponckhockie, yesterday, in company with her cousin. On a street were a number of goats. Thinking that her City cousin, who had lived all her life in the great Metropolis, did not know what kind of animals they were, she said:

"There, Johanna, is a very common animal, but I venture to say you do not know the name of them."

"Why, Ethel, they are goats. You forget that I live in Harlem," was the reply.

Reported To-Day.

State Senator Linson's Kingston City Charter Amendment bill was reported in the Assembly to day.

IN RELATION TO CARE OF INSANE, ETC.

Effect on Ulster County if Fassett-Batcheller Bill is Passed.

The following statement, which is furnished THE FREEMAN by the State Charities Aid Association, shows the financial effect that the Fassett-Batcheller bill, which relates to the care and curative treatment of paupers and indigent insane, etc., will have on Ulster County, if the bill is passed. The bill is based on the principle that the insane being the wards of the State, should be maintained entirely by the State, and it consequently makes no charge to the counties, but apportions the expense on the basis of State valuation for purposes of taxation. It is estimated that if the insane of the counties [exclusive of New-York, Kings and Monroe] are transferred to the care of the State, a tax of three-tenths of a mill in the dollar will be required for their maintenance. According to the statement, the present cost to Ulster County for the care of insane is as follows:

Number of acute insane from County in State Asylums October 1, 1887	68	
Annual cost of same at $4 per capita per week		$14,144
Number of chronic insane from County in State Asylums October 1, 1887	31	
Annual cost of same at $2.25 per capita per week		3,627
Number of insane in Poor-House Asylum October 1, 1887	70	
Annual cost of same at $1.25 per capita per week		4,588
Total number of insane supported by County	169	
Annual tax to County for support of State Insane Asylums		3,053
Total present annual cost to County for care of insane		$25,410

The approximate cost to Ulster County under the Batcheller bill is shown to be as follows:

Tax [3-10 of a mill] to County for maintenance in State Asylum	$7,633
Present annual tax for support of State Asylums [as above]	3,053
Total approximate cost to County under bill	$10,686
Diminished annual cost to Ulster County for care of insane should bill be enacted	$14,724

The statement further adds: If the $900,000 for the new cottages on State Asylum grounds is to be raised by taxation, it would require a general tax of about 27-100 of a mill on the State valuation; but as the State has a surplus in the treasury of $3,714,907, no additional tax would be required—*i. e.*, it would be optional with the Legislature to raise money by taxation or not.

A VERY FASTIDIOUS TRAMP, THIS.

He Wanted a Roe Shad, But He was Disappointed.

A tramp, whose appearance would denote that he had taken an active part in the Oklahoma booming episode, stopped at a house on Chestnut-street, Rondout, to-day, and asked the lady who answered his summons for a bite of something to eat. The lady felt pity for the "road agent" and gave him a thick slice of bread and a large piece of meat. Drawing his rags together and with a look of contempt on his unshaved mien, the tramp said: "Madam, to-day is Friday, and yer oughter know better den ter offer me meat. Wot I wants is fish, an' I'd be obleeged ter yer if yer'll trot out a roe shad. No mackeral or cod-fish, do yer hear." The lady called a savage-looking dog to her side and the fastidious tramp left hurriedly, muttering to himself: "This is the wust town fer dogs dat I ever struck."

Snapem, Jr., Again.

"Oh my, Mrs. O'Grady, what is the matter with your eye?" asked Snapem, Jr., this morning, as the highly colored optic of that worthy woman attracted his attention.

"Arrah, me old man came home last night, an' he had in a drop too much of the crayture. He was a walken' an' a talken' around the room an' I says, says I: 'Pat sit down an' be aisy.' 'Aisy is it, Mrs. O'Grady,' says he, an' wid that he kicked the table over an' sent the chiny flyen'. I took a hold of him an' tried to payceify him, but me old man is that moighty when he is in the liker, that the old boy himself couldn't hold him, an' I got a black eye."

The Brick Market.

The prices for brick in the New-York market are as follows: Haverstraw hard, $8 to $8.25; Up-Rivers, $7.50 to $8; pale dull.

[From the Haverstraw Messenger.]

The price of brick has gone up, and the brick men are happy. On account of the protracted wet weather last fall the crop of brick was short, and the mild weather has enabled the builders to do more work, hence the advance.

METHODIST CONFERENCE

NOW IN SESSION IN THE ELIZABETH-STREET CHURCH, N. Y.

The Presiding Bishop Makes an Address—The Utah Mission Needs More Churches, Schools, Preachers and Teachers—Collection Taken Up.

J. H. Lane, of West Stockbridge, Mass., who is well known in this City, is in New-York attending the M. E. Conference, which is in session in that City. He writes to THE FREEMAN as follows:

A BISHOP'S REMARKS.

At the close of the session of the New-York M. E. Conference Wednesday, Bishop Mallalieu said: "It may have been expected that I would make some remarks at the opening of this session, as this is my first visit to your Conference as Presiding Bishop. I am glad to be with you, and hope our session may prove pleasant and profitable to each and all members of the Conference, and trust such action will be taken in the Conference and in the Cabinet as will be for the best interest of the cause of Christ. I have not lost faith in God in the work of the Conference and ask an interest in your prayers. I am your brother, and hope you will so consider your relation to me, and feel free to come and consult with me on any matter respecting your appointment."

YESTERDAY'S PROCEEDINGS.

Following the opening of Conference, yesterday, the Rev. T. C. Iliff, of Utah Mission, addressed the delegates. He stated that the great need of that country just now was—more churches, schools, preachers and teachers.

A collection was ordered and about $500 were raised. At the close of the collection, Chaplain McCabe proposed that the members pledge themselves to build one church this year for the Utah mission work.

C. N. Sims, D. D., L. L. D., Chancellor of Syracuse University, then addressed the Conference.

The examination of preachers as to their work during the past year was taken up, and the Rev. A. J. Palmer, D. D., Presiding Elder of New-York District, reported a success in the different departments of church building, revival service and missionary collections. The name of each effective preacher on the District was called, and each one reported his collections.

Dr. A. K. Sanford read the report of the Conference Trustees—total of personal and real estate connected with the Mt. Rutson and other legacies, $83,406. He stated that there would be added this year by endowment $20,000 more.

A Committee was ordered to nominate Trustees to fill the places made vacant. The Rev. Messrs. A. K. Sanford, A. Schriver and J. E. Gorse were appointed as such Committee.

D. A. Hunt, the Secretary of the American Bible Society, represented the Bible cause.

Dr. Homar Eaton, Associate Agent of the Methodist Episcopal Book Room, stated that 100 years ago the publishing house was established with a capital of $600 and that money was borrowed. Now they have $2,600,000.

TO-DAY'S DOINGS.

A dispatch from New-York to THE FREEMAN, to-day, stated: In the New-York Methodist Conference, to-day, favorable reports were received from the Presiding Elders of the Newburgh, Kingston and Poughkeepsie Districts. The question of the age of the Conference has been practically settled in favor of the party who fix the date of its establishment as 1790, so that the centennial will not be celebrated until 1890.

A resolution was passed protesting against the passage of the bill now before the Legislature to include the Catholic Protectory among the schools supported by State money.

Another resolution protesting against the bill now before the Legislature giving the Mayor power to appoint one School Commissioner from each Assembly District, was also passed.

The preliminary report of the Treasurer showed a total mission fund of $44,361, an increase of $183 over the fund of 1888. This fund is divided as follows: Kingston, $3,878; New-York, $30,467; Newburgh, $6,810; Poughkeepsie, $3,205.

AN OLD HUNTER'S EXPERIENCE.

His Fight with a Bear in the Catskill Mountains Described.

Charles Dyer, bear hunter, of Phœnicia, in talking over some of his old bear hunts said to a reporter of THE FREEMAN to-day: "I got a good many bears during my hunting days, but the best luck I had was killing four bears one fall. About the biggest bear I ever saw, I got too early to make anything out of his hide. How big was he? Why, as big as an ox! but there was no fur on him at all. I got that bear in the Beech Flat to the right of the Wittenburg Mountain, above Snyder Hollow, in the Catskills. Did I trap him? No, not a bit of it; I had to shoot him seven times before I killed him. Fight? Yes, he fought all he could. I didn't have a dog with me at that time or I wouldn't have had so much trouble. When I started out to go hunting that time I took my rifle along instead of a shot-gun. While walking unconcerned through Beech Flat, all at once I come on this bear. I fired, but being a little flurried didn't put a stopper on the critter. He came right along for me. I loaded as I ran and would turn around quick and plug a bullet in him. As I said before I shot him seven times before I brought him down. Finally I got a shot in that fixed him. After I shot him then I had more trouble, because of course, I couldn't stir him from there. I went down to 'Gus.' Snyder's, and asked him for a yoke of cattle. 'Gus.' says, 'I can't let you have the cattle, but I will send up three men with you and you can fetch him out.' Three good men went along and we got a big pole and strapped him on it. He was so heavy we could only carry him a little ways at a time and then we had to lay him down to rest. Gosh! I tell you it almost took the wind out of me. We managed to get him a quarter way out of the mountain and then I found I had to get a yoke of cattle, so I went down in the valley and hired a yoke, hitched them to a sleigh and we fetched him out. How much did he weigh? Why, that bear would have weighed 500 pounds if he had been fat. It was the biggest bear I ever saw and he could fight all the harder and run all the faster because he wasn't fat. A good bear dog is the thing to have along when you hunt those critters. A bear can't rush at you if you have a dog. The dog grabs the bear in the hind leg and then the bear turns on the dog. A knowing dog lets go and runs off, but the moment the bear turns his head, the dog is after the bear again and nabs him."

CLASS WAR HAS BEEN INAUGURATED.

College Students who are at Odds—Funeral Procession.

[From the New-York Sun.]

A class war has been inaugurated in St. Stephens's College, Annandale. On Tuesday the class of '90 planted an elm tree, which was sawed down on the same night. The members of the Senior class were charged with the indignity. They declared themselves insulted, and refused to make any answer to the Juniors. In this they were supported by the Sophomore class. The class of '90 retorted by cancelling all subscriptions toward the next commencement day expenses, and the Freshman class shed tears of sympathy with the '90 boys, and also refused to help defray the expenses of the Seniors at commencement.

On Wednesday the Junior class again planted a tree, and that night stood guard over it, ready to give any offender who might come near a warm reception. At the same time the members of the Freshman class set out into the darkness, carrying with them a small coffin. They had passed their examination in algebra, and Wednesday night was the appointed time for the burial. The Sophomores were not long in getting a scent of the departed funeral procession, but they soon lost the trail, and for hours searched the woods and beat the bushes in vain. At midnight the Freshmen returned, and, coming up in a body, ran upon the junior guards at the new class tree. They were immediately surrounded, but their class cry saved them, and they were able to enjoy a supper to which the Sophomores were not invited. Thursday morning a great orange-colored banner bearing the legend "90" hung from the Junior class tree. There is intense excitement, and the Juniors will have to guard their tree for some time.

THE DESTRUCTION OF FORESTS.

The Adirondack Region Being Stripped—Where the Wood Goes.

In speaking of the destruction of the forests a Middletown paper says: "The principal agencies now at work stripping off the timber are the great lumber companies and the wood-pulp and wood-alcohol men. An example of the destructive work done by the lumber companies is found in the recent purchase for immediate cutting down by a West-Troy firm of 34,000 acres of spruce forests in the Adirondack region. The smaller fry of lumbermen equipped with portable steam saw-mills, which may be readily moved from point to point, follow in the wake of the big operators and glean every foot of timber of any size or value that is found standing. There are 40 wood-acid or wood-alcohol factories in Sullivan, Broome and Delaware Counties which consume not far from 250,000 cords of hard wood every year, while the numerous wood-pulp mills of the region absorb an enormous supply of soft wood. The brickyards along the Hudson are also insatiable wood consumers."

A Communication.

The following communication has been received by THE FREEMAN:

"I would like to correct a statement made by Charles Merritt in reference to me as reported at the late meeting of the Board of Health. He is credited with having there stated that 'Marius Schoonmaker had however given notice that his land would be damaged if the course of the brook was changed as it would cease to flow through his property.' I beg to say that I have done no such thing nor thought of it. But last year Mr. Merritt told me if it was attempted he would sue out an injunction and asked me whether the Common Council had the right to change the natural course of the brook so as to divert the water from his land. I told him they had no legal right. I will add that if the City authorities will correct the error they made in laying the culvert under the Fair-street extension and make it larger and deeper there will be no difficulty in draining that land. M. SCHOONMAKER."

A Child's Peril.

[From the Newburgh News.]

Horror was depicted upon the countenances of a number of residents of Ann-street yesterday afternoon, who chanced to be looking from their windows. It was caused by the sight of a tot of a child walking about the gutter on the roof of a three story house, in blissful ignorance of any danger. The parents of the child were notified and soon removed the child from its perilous surroundings.

Work Completed.

Work on the fortification at Hutton's brick-yard, East-Kingston, to guard against the dangers of a land slide there, has been completed. Large logs and stone were used. Should another slide occur there, no further damage is anticipated other than the obstruction of the road that runs past that point.

[From the Honesdale Citizen.]

A man in Port Jervis fell into a lager beer vat the other day, and was drowned. He drank as hard as he could to save himself, and would have succeeded had he not been choked by a floating cork.

Still Alive and Kicking.

[From the Catskill Recorder.]

In looking over our files the other day we ran across the official report of examinations in Greene County for exemption from military duty, dated December 11, 1862. The total number of applicants for exemption was 1,828 and the number exempted by the examining surgeons was 1,482. There was an appalling amount of ill-health in this section in those days, brethren. And yet a great many who apparently wouldn't live to see flowers bloom again are still alive and kicking.

Judge Geo. C. Wing,

Of Auburn, one of Maine's prominent lawyers, and for several years the Chairman of the Republican State Committee, was troubled with boils on the back of his neck in their worst form, resembling carbuncles. Three bottles of Brown's Sarsaparilla completely cured him, and now Judge Wing speaks in the highest praise of Brown's Sarsaparilla.

The long sought remedy for spring lassitude has been found. Entirely free from the noxious alcohols it is compounded of these ingredients which extended medical experience has proven to be the most potential in their effect upon the kidneys, liver and blood, and, unlike the common "spring medicine" with which the market is flooded, its effect is not only immediate, but enduring. No stronger evidence to this effect could be offered than the voluntary testimony to its virtues of men of the character and position of those whose names appear with their willing permission through all our works. Men, women and children alike can take it with safety, and for ladies who are peculiarly susceptible to that tired feeling at this season of the year we advise the use of

He had been ill for a long time. Recently he went to Kyserike, Ulster County. Mr. Parsell was well known among Hudson River boatmen. Flags were displayed at half-mast, to-day, on the propellers and steamboats of the Cornell Steamboat Company, in honor to the memory of the deceased. The remains will be brought to Port Ewen for interment.

Mrs. Cornelia Perkins, wife of the late Dr. E. K. Perkins, of Rondout, died last evening. Mrs. Perkins was about 76 years of age. She came to Rondout about 30 years ago. She was born in Barnegat, Dutchess County, in 1813. Her father was Arthur Daborn, a farmer. From there she removed to Highland, Columbia County, where she married Dr. Perkins, two years afterward. Later on she removed to Rondout, where she spent the remainder of her life. She was a Christian woman and was a member of the Wurts-Street Baptist Church. The funeral will occur to-morrow afternoon, from the family residence, on Abeel-street.

FELL FROM THE TOP OF PILE DRIVER.

A Rondout Man's Accident—Is in a Critical Condition.

At about 5 o'clock yesterday afternoon a young man named James English, of Rondout, narrowly escaped being killed outright. He was at work on a pile driver near Overbaugh's brick-yard, East-Kingston, and he had occasion to go to the top of the leaders. Suddenly the other workmen heard a thud upon the deck of the driver. It was English. He had fallen a distance of about 38 feet. He was picked up in an unconscious condition and carried to his home on Union-avenue. Dr. George C. Smith was summoned. It was found that the young man's skull was fractured. His right wrist is probably broken, and he is believed to have sustained internal injuries. During last night much blood flowed from his ears. To-day English's condition was considered critical. He was in a state of semi-consciousness.

IN RELATION TO CARE OF INSANE, ETC.

Effect on Ulster County if Fassett-Batcheller Bill is Passed.

The following statement, which is furnished THE FREEMAN by the State Charities Aid Association, shows the financial effect that the Fassett-Batcheller bill, which relates to the care and curative treatment of paupers and indigent insane, etc., will have on Ulster County, if the bill is passed. The bill is based on the principle that the insane being the wards of the State, should be maintained entirely by the State, and it consequently makes no charge to the counties, but apportions the expense on the basis of State valuation for purposes of taxation. It is estimated that if the insane of the counties [exclusive of New-York, Kings and Monroe] are transferred to the care of the State, a tax of three-tenths of a mill in the dollar will be required for their maintenance. According to the statement, the present cost to Ulster County for the care of insane is as follows:

Number of acute insane from County in State Asylums October 1, 1887	68	
Annual cost of same at $4 per capita per week		$14,144
Number of chronic insane from County in State Asylums October 1, 1887.	31	
Annual cost of same at $2.25 per capita per week		3,627
Number of insane in Poor-House Asylum October 1, 1887	70	
Annual cost of same at $1.25 per capita per week		4,586
Total number of insane supported by County	169	
Annual tax to County for support of State Insane Asylums		3,053
Total present annual cost to County for care of insane		$25,410

The approximate cost to Ulster County under the Batcheller bill is shown to be as follows:

Tax [3-10 of a mill] to County for maintenance in State Asylum	$7,633
Present annual tax for support of State Asylums [as above]	3,053
Total approximate cost to County under bill	$10,686
Diminished annual cost to Ulster County for care of insane should bill be enacted	$14,724

The statement further adds: If the $900,000 for the new cottages on State Asylum grounds is to be raised by taxation, it would require a general tax of about 27-100 of a mill on the State valuation; but as the State has a surplus in the treasury of $3,714,907, no additional tax would be required—*i. e.*, it would be optional with the Legislature to raise money by taxation or not.

MEETING OF LOCAL BRANCH.

A tramp, whose appearance would denote that he had taken an active part in the Oklahoma booming episode, stopped at a house on Chestnut-street, Rondout, to-day, and asked the lady who answered his summons for a bite of something to eat. The lady felt pity for the "road agent" and gave him a thick slice of bread and a large piece of meat. Drawing his rags together and with a look of contempt on his unshaved mien, the tramp said: "Madam, to-day is Friday, and yer oughter know better den ter offer me meat. Wot I wants is fish, an' I'd be obleeged ter yer if yer'll trot out a roe shad. No mackeral or cod-fish, do yer hear." The lady called a savage-looking dog to her side and the fastidious tramp left hurriedly, muttering to himself: "This is the wust town fer dogs dat I ever struck."

AN OLD HUNTER'S EXPERIENCE.

His Fight with a Bear in the Catskill Mountains Described.

Charles Dyer, bear hunter, of Phœnicia, in talking over some of his old bear hunts said to a reporter of THE FREEMAN to-day: "I got a good many bears during my hunting days, but the best luck I had was killing four bears one fall. About the biggest bear I ever saw, I got too early to make anything out of his hide. How big was he? Why, as big as an ox! but there was no fur on him at all. I got that bear in the Beech Flat to the right of the Wittenburg Mountain, above Snyder Hollow, in the Catskills. Did I trap him? No, not a bit of it; I had to shoot him seven times before I killed him. Fight? Yes, he fought all he could. I didn't have a dog with me at that time or I wouldn't have had so much trouble. When I started out to go hunting that time I took my rifle along instead of a shot-gun. While walking unconcerned through Beech Flat, all at once I come on this bear. I fired, but being a little flurried didn't put a stopper on the critter. He came right along for me. I loaded as I ran and would turn around quick and plug a bullet in him. As I said before I shot him seven times before I brought him down. Finally I got a shot in that fixed him. After I shot him then I had more trouble, because of course, I couldn't stir him from there. I went down to 'Gus.' Snyder's, and asked him for a yoke of cattle. 'Gus,' says, 'I can't let you have the cattle, but I will send up three men with you and you can fetch him out.' Three good men went along and we got a big pole and strapped him on it. He was so heavy we could only carry him a little ways at a time and then we had to lay him down to rest. Gosh! I tell you it almost took the wind out of me. We managed to get him a quarter way out of the mountain and then I found I had to get a yoke of cattle, so I went down in the valley and hired a yoke, hitched them to a sleigh and we fetched him out. How much did he weigh? Why, that bear would have weighed 500 pounds if he had been fat. It was the biggest bear I ever saw and he could fight all the harder and run all the faster because he wasn't fat. A good bear dog is the thing to have along when you hunt those critters. A bear can't rush at you if you have a dog. The dog grabs the bear in the hind leg and then the bear turns on the dog. A knowing dog lets go and runs off, but the moment the bear turns his head, the dog is after the bear again and nabs him."

CLASS WAR HAS BEEN INAUGURATED.

College Students who are at Odds—Funeral Procession.

[From the New-York Sun.]

A class war has been inaugurated in St. Stephens's College, Annandale. On Tuesday the class of '90 planted an elm tree, which was sawed down on the same night. The members of the Senior class were charged with the indignity. They declared themselves insulted, and refused to make any answer to the Juniors. In this they were supported by the Sophomore class. The class of '90 retorted by cancelling all subscriptions toward the next commencement day expenses, and the Freshman class shed tears of sympathy with the '90 boys, and also refused to help defray the expenses of the Seniors at commencement.

On Wednesday the Junior class again planted a tree, and that night stood guard over it, ready to give any offender who might come near a warm reception. At the same time the members of the Freshman class set out into the darkness, carrying with them a small coffin. They had passed their examination in algebra, and Wednesday night was the appointed time for the burial. The Sophomores were not long in getting a scent of the departed funeral procession, but they soon lost the trail, and for hours searched the woods and beat the bushes in vain. At midnight the Freshmen returned, and, coming up in a body, ran upon the junior guards at the new class tree. They were immediately surrounded, but their class cry saved them, and they were able to enjoy a supper to which the Sophomores were not invited. Thursday morning a great orange-colored banner bearing the legend "90" hung from the Junior class tree. There is intense excitement, and the Juniors will have to guard their tree for some time.

THE DESTRUCTION OF FORESTS.

The Adirondack Region Being Stripped—Where the Wood Goes.

In speaking of the destruction of the forests a Middletown paper says: "The principal agencies now at work stripping off the timber are the great lumber companies and the wood-pulp and wood-alcohol men. An example of the destructive work done by the lumber companies is found in the recent purchase for immediate cutting down by a West-Troy firm of 34,000 acres of spruce forests in the Adirondack region. The smaller fry of lumbermen equipped with portable steam saw-mills, which may be readily moved from point to point, follow in the wake of the big operators and glean every foot of timber of any size or value that is found standing. There are 40 wood-acid or wood-alcohol factories in Sullivan, Broome and Delaware Counties which consume not far from 250,000 cords of hard wood every year, while the numerous wood-pulp mills of the region absorb an enormous supply of soft wood. The brickyards along the Hudson are also insatiable wood consumers."

A Communication.

The following communication has been received by THE FREEMAN:

"I would like to correct a statement made by Charles Merritt in reference to me as reported at the late meeting of the Board of Health. He is credited with having there stated that 'Marius Schoonmaker had however given notice that his land would be damaged if the course of the brook was changed as it would cease to flow through his property.' I beg to say that I have done no such thing nor thought of it. But last year Mr. Merritt told me if it was attempted he would sue out an injunction and asked me whether the Common Council had the right to change the natural course of the brook so as to divert the water from his land. I told him they had no legal right. I will add that if the City authorities will correct the error they made in laying the culvert under the Fair-street extension and make it larger and deeper there will be no difficulty in draining that land. M. SCHOONMAKER."

A Child's Peril.

[From the Newburgh News.]

Horror was depicted upon the countenances of a number of residents of Ann-street yesterday afternoon, who chanced to be looking from their windows. It was caused by the sight of a tot of a child walking about the gutter on the roof of a three story house, in blissful ignorance of any danger. The parents of the child were notified and soon removed the child from its perilous surroundings.

Work Completed.

Work on the fortification at Hutton's brick-yard, East-Kingston, to guard against the dangers of a land slide there, has been completed. Large logs and stone were used. The total number of applicants for exemption was 1,828 and the number exempted by the examining surgeons was 1,482. Judge Geo. C. Wing,

Of Auburn, one of Maine's prominent lawyers, and for several years the Chairman of the Republican State Committee, was troubled with boils on the back of his neck in their worst form, resembling carbuncles. Three bottles of Brown's Sarsaparilla completely cured him, and now Judge Wing speaks in the highest praise of Brown's Sarsaparilla.

The long sought remedy for spring lassitude has been found. Entirely free from the noxious alcohols it is compounded of these ingredients which extended medical experience has proven to be the most potential in their effect upon the kidneys, liver and blood, and, unlike the common "spring medicine" with which the market is flooded, its effect is not only immediate, but enduring. No stronger evidence to this effect could be offered than the voluntary testimony to its virtues of men of the character and position of those whose names appear with their willing permission through all our works. Men, women and children alike can take it with safety, and for ladies who are peculiarly susceptible to that tired feeling at this season of the year we advise the use of

NOTES ON NEWS OF THE DAY.

MR. CLEVELAND sent and effusive letter of thanks to the New York Chamber of Commerce yesterday for his election as an honorary member. He has not yet returned thanks to the city for the job of $4 a day that has been tendered him at the High Bridge Park.

THE Day girls, who confessed to several acts of incendiarism at Summit, N. J., on Wednesday, are believed by the police to have been romancing. One of the fires that they claim to have started was fully proved against one Van Ness last fall, and he is serving out a long term in prison for the crime.

EDWIN BOOTH arrived home safely yesterday, and was much improved. He does not admit that the attack was paralysis but a temporary loss of voice. This had happened to him several times before, but not on the stage. His friends attribute the trouble to excessive smoking. He smokes twenty big imported cigars a day.

THE left foot of Rev. Edward Beecher, which was crushed in a railroad accident in Brooklyn last Wednesday night, was amputated yesterday. Mr. Beecher soon rallied from the operation, and the surgeons are hopeful that he will survive. He is at the Seney hospital and cannot be removed to his home.

GOV. STEVENSON of Idaho has issued a call for a constitutional convention to meet at Boise City July 4th. This action is taken on the assurance received from Delegate Dubois at Washington, that Idaho will become a state next winter. The constitution will be framed, state officers and a Legislature elected next fall, and two United States Senators chosen next winter.

SPEAKER COLE explained before the ceiling investigation committee the $4,000 draft which was found in his pocketbook last fall. He had borrowed the money from John M. Drake of New York, expecting to invest it in some bank stock which was offered at an advantageous figure. The deal fell through, and he returned the money to Mr. Drake. The latter was present and confirmed the Speaker's statement. This puts another Democratic scandal to sleep.

LANDLORD MERRIFIELD of the Continental Hotel, New York, and Dr. Tevis were arrested yesterday and arraigned before Justice Duffy for shielding a girl who had attempted suicide. Merrifield explained that the girl hired a room at his hotel and took a dose of chloroform. He discovered her and called in Dr. Tevis, who saved her life. Then he raised a generous sum for her and secured her a situation. The Judge, after hearing the story, told the prisoners that "if that is all you know about it you may go."

THE bill for the appointment of a commission to determine whether New York, Brooklyn, Long Island City, Richmond county and the southern towns of Westchester county should be included in one city passed to a third reading in the Assembly yesterday. It is stated that every one of the twelve members from Kings county will vote against the bill. They prefer to have Brooklyn remain a city by itself until it gets ahead of New York.

THE Democratic Postmaster at St. Clair, Pa., is supposed to be in New York with the funds of the office in his possession. The Democratic Assistant Postmaster at Elmira is missing with $1,500 of government cash. These rascals are in full sympathy with the surplus-reduction policy of their party. They are setting the fashion of drawing a few years salary in advance which may prove contagious. It would undoubtedly be a wise precaution on the part of the government to set a careful watch on the postoffices till the clean sweep is completed.

ROBERT T. LINCOLN arrived in Washington yesterday to talk with the President about the English mission. At the Arlington Hotel he expressed surprise that Gen. Harrison should have thought of him. He declared that he did not feel fitted for the place either by experience or talent. He doubted whether it would be just to the President and the country for him to accept an office of so much responsibility, the duties of which were entirely new to him. On visiting the President he expressed anew his reluctance, but was answered that it was an appointment that no man could decline, and that he should consider his acceptance already received. After a visit to Mr. Blaine it was understood that Mr. Lincoln had decided to accept.

THE "Calliope," the English war ship which succeeded in getting out to sea at Samoa in the terrible cyclone that wrecked the American and German vessels, has arrived at Sydney without the loss of a life. The Captain reports that precautions against hurricanes had been taken before the storm burst. Five anchors had been dropped but the chains of four were broken and the vessel began to drift. He then sailed for the open sea, working his way at the rate of a half-knot an hour, while tremendous seas broke over the vessel. The Captain reports that before he left Apia the American man-of-war Nipsic had been floated off the beach.

CONGRESSMAN C. R. BRECKINRIDGE has been holding conferences with the Governor of Arkansas this week, at which he proposed to contribute a large sum of money to aid in hunting down the Clayton assassins. Mr. Breckinridge's action is remarkably late, as the murder took place on the 29th of January. And it is not the right kind of action either. His money is not needed, for the Little Rock *Gazette* declares that the murderers are known and can be arrested whenever they are wanted. Mr. Breckinridge's correct way of condemning the Clayton murder would have been to resign from Congress. If he had done this a fortnight ago John Johnson would not have been murdered. His declination to do so was a square endorsement of the Clayton murder, and encouraged his partisans to proceed in the work of blood. It may be that the Johnson murder has alarmed him, and that he is anxious to show that he is not in sympathy with the thugs who are in charge of his political interests. His money will not procure their arrest, neither will it prevent other murders if found necessary to keep him in office.

Savery and Yates' Prison Labor Bill Special Order for Thursday.

By Telegraph to The Freeman.

ALBANY, April 5.—Linson's Kingston City charter amendment bill was reported in the Assembly to-day.

On motion of Fish it was resolved that hereafter the sessions of the House shall begin at 10:30 A. M. and close at 2 P. M.

The Senate amendments to the bill reappropriating $100,000 for bottoming out the canals were non-concurred in and a Conference Committee was appointed.

On motion of Crosby the Savery and Yates prison labor bills were made a special order for Thursday morning next.

The House went into Committee on the anti-dressed beef bill.

Nixon, the introducer, make a long speech in explanation and advocacy of the bill.

Crosby said that while the bill was ostensibly introduced for the purpose of preserving the public health, and while it was skilfully and ingeniously drawn to avoid unconstitutionality, the bill was really for the purpose of preventing the competition of Western with Eastern dealers.

The Committee rose, and on motion of Nixon the bill was ordered to a third reading, 55 to 39.

Bills reported: Husted's, appropriating $56,000 to improve the sanitary condition of the Capitol. Larmon's, to equalize taxation on real and personal property. Murphy's, amending the act authorizing the use of State armories by associations of discharged veterans. [Third reading.] Cottrell's bill to establish dairy schools. Savery's drainage of lowlands bill. McAdams', relative to labeling bottles, etc., containing cotton seed oil products. Senator Erwin's, to promote dairy agriculture.

Fish's bill for the establishment of a Reformatory for women in either New-York or Kings County was passed.

The report of the Conference Committee on the bill appropriating $100,000 for bottoming out the canals was agreed to and the bill now goes to the Governor.

Andrus, from the Committee on Privileges and Elections, reported the Cronin-Brownell contested seat case in favor of the present member, Cronin. The report was tabled. Adjourned until Monday night.

IN THE STATE SENATE.

By Telegraph to The Freeman.

ALBANY, April 5.—In the Senate to-day the Finance Committee reported the general appropriation bill. The important items amended or incorporated are as follows: Dairy Commission, $75,000, increased to $85,000. Capital Commissioner's salary, $7,500. Expenses of Commissioners of Labor Statistics, $15,000, increased to $20,000. Expenses of manufacturing in the Elmira State Reformatory, $70,000, increased to $100,000. Hudson House of Refuge, $60,000. Commissioners of Niagara reservation, $20,000, increased to $25,000. Brockport Normal School $18,000, increased to $20,000. Cortland Normal School $18,000, increased to $20,000. New-Paltz Normal School $17,000, increased to $18,000.

Bills passed: Harwood's Niagara Hydraulic Company bill. Deane's Hudson charter amendment. Grady's, New-York coal scalpers' license bill. Grady's, amending the mechanics'l ien law.

Coggeshall introduced, at the request of Worth, who was absent and ill, Green's New York and New-Jersey bridge bill.

The conference report on the $100,000 canal bill for "bottoming out" was accepted and the bill was passed. Adjourned until Monday night.

State Board of Mediation Attempting to Effect a Settlement.

By Telegraph to The Freeman.

The State Board of Mediation and Arbitration has been in communication with the parties to the controversy since Friday last with a view to effecting a settlement. At noon to-day the Company sent to the Board their ultimatum, as follows:

IT COST TOO MUCH.

The Sad Experience which Befell One of the Astors.

In the early days of the direct tea trade with China, importers were anxious to secure the earliest cargoes of a new crop.

The fastest clipper ships were engaged in the trade. Great haste in loading them was followed by a hot race to reach New-York first.

The first cargo brought the best price and large profits. The successful Captain was always rewarded, so every known aid to navigation was adopted.

The young Captain of one of Mr. Astor's clippers bought, on one of his trips, a new chronometer, and with its aid made a quick passage, and arrived first. He put the price of it into the expense account of the trip, but Mr. Astor threw it out, insisting that such an item of expense for new fangled notions could not be allowed.

The Captain thereupon resigned and took service with a rival line.

The next year he reached port long in advance of any competitor, to the great delight and profit of his employers, and the chagrin of Mr. Astor.

Not long after they chanced to meet, and Mr. Astor inquired:

"By the way, Captain, how much did that chronometer cost you?"

"Six hundred dollars." Then, with a quizzical glance, he asked:

"And how much has it cost you, Mr. Astor?"

"Sixty thousand dollars."

Men are often unfortunate in the rejection of what they call new-fangled notions.

There are sick men who refuse, even when their physicians tell them they cannot help them, to take Warner's Safe Cure, because it is a "new fangled" proprietary medicine. The result is they lose—life and health.

Thousands of other men have been restored to health by it, as the testimonials furnished to the public show. These testimonials cannot be doubted. The proprietors have a standing offer of $5,000 to any one who will show that any testimonial published by them is not, so far as they know, entirely true.

Dr. Andrew Wilson, Fellow of the Royal Society, of Edinburgh, the editor of "Health," London, Eng., says, in his magazine, in answer to an inquiry, "Warner's Safe Cure is of a perfectly safe character, and perfectly reliable."

The refusal of a manufacturing firm to pay for the patent of a new invention by one of their workmen, cost them their entire business. A new firm took out the patent and were soon enabled to make goods enough cheaper to drive the old firm out of business; and many a physician is daily finding his patients, long-time chronic invalids, unaccountably restored to health by the use of a new kidney specific. New fangled notions are sometimes very valuable, and it costs too much to foolishly reject them.

Weather Indications.

WASHINGTON, April 5. — *Indications for Saturday: Light rain, followed by fair weather, southerly winds.*

THE ELECTION OF 1892.

The New York *Press*, whose editor hopes to be Superintendent of the Census, discusses at considerable length the question of apportionment under the coming census. It admits the possibility of passing an apportionment bill by the present Congress at its closing session, 1890-91. It also admits that the fifty-third Congress, to be elected in 1892 or at the next Presidential election, can be chosen under that apportionment. But it is in doubt whether the election for President can proceed upon the same apportionment. We quote:

The apportionment, according to the eleventh census, even if agreed upon at the last session of the Fifty-first Congress, could not be made to apply to a Congress already elected (the Fifty-second Congress), and, therefore, it would go into force with the Fifty-third Congress, which will be elected November, 1892, at the same time as the Presidential ticket. The question may be reduced to this: Will the electoral vote be based on the actual Congressional representation of the Fifty-second Congress, which will exist until March 4, 1893, or can it be based upon the representation as apportioned for the Fifty-third Congress? In the absence of unquestioned legal authority on the subject the *Press* is inclined to think that the electoral vote must be based on the existing representation, and not on the representation to be voted for November, 1892.

This is a singular question to raise, and if the *Press* is right it may seriously affect the result. Thus Kansas will be less less helpful to the Republican party if permitted to choose only nine electors (her present number) than the twelve or thirteen to which her increase of population will entitle her. The four new states recently admitted are qualified to cast thirteen electoral votes, but the next census will probably raise the number to sixteen. That the denial to our rapidly growing states of their full rights in the Electoral Colleges on a mere technicality would be unjust the *Press* will undoubtedly admit.

The constitutional direction on the subject is brief, but seems to us explicit. Here is the section relating to the choosing of electors:

Each state shall appoint, in such manner as the Legislature thereof may direct, a number of electors equal to the whole number of Senators and Representatives to which the state may be entitled in the Congress.

The state will at the same election elect the number of Representatives "to which it is entitled in the Congress," under the new apportionment, and not under the old. Is it not equally entitled to a representation in proportion to its population in the electoral college? It is only necessary to cite a few precedents, and there are plenty of them in the history of the state of New York.

The second apportionment was made April 14, 1792, and it increased the representation of New York in the lower house of Congress from six to ten. The election of George Washington to a second term took place in the fall of the same year, and New York chose 12 electors who cast their votes for him. Again, an apportionment bill was passed December 21, 1811, which raised the representation of New York in the lower house from 17 to 27. The second election of James Madison took place in the fall of 1812, and at that election New York chose 29 electors, whose votes were cast for DeWitt Clinton for President. Another apportionment bill was passed May 22, 1832, which increased New York's representation in the lower house from 34 to 40. Andrew Jackson was elected President in the fall of the same year, and New York cast 42 electoral votes for him. The apportionment of February 2, 1872, raised New York's representation in the lower house from 31 to 33, and in the fall of the same year New York chose 35 electors who cast their votes for Gen. Grant. The only "failure to connect" in these twenty year periods was in 1852, when the apportionment bill was not passed until July 30th of that year. But according to these precedents it appears that the election of electors can take place upon the new apportionment, whether the bill is passed by the Congress in existence when the census is taken or the one succeeding it. They should serve to remove all doubt from the mind of the *Press* upon the subject.

BETTER DAYS FOR PENSIONERS.

A better temper is manifest already towards veterans who are seeking pensions. John P. Davis of Ohio, who was denied a dependent father's pension by the Democratic pension office, received a decision in his favor yesterday from Assistant Secretary Bussey. In 1863 Davis's son, while serving as a hospital nurse, took a swallow of tincture of aconite by mistake for brandy, a bottle of which was on the same table. He died years afterwards from disease of the lungs and all the vital organs, caused by the poison. The Democratic decision in this case was that the injury was not received in the line of duty, but was the result of the soldier's indiscretion. Soldiers may infer from the new decision that "indiscretion" is not going to bar them out. Nothing could be more unfair than to permit it to do so, for indiscretion, or rashness, was a very common failing among the rank and file. They were often guilty of it in the presence of the enemy, and hence were much more likely to get hurt than if they had acted on the rule that "discretion is the better part of valor." The private who answered a lecture from his Captain on his indiscretions with the remark that "you shouldn't expect to get all the cardinal virtues for $12 a month," stated a great principle. The boys fought for low wages because the government, with the risk of defeat before it, could not at the time afford to pay more. The government won a victory which brought to light its immense resources and made it the richest nation on the globe. The men who invested their lives in the enterprise are going to get their dividends now.

A LIE ON ITS TRAVELS.

Huston is the Chairman of the Indiana Republican State Committee to whom Dudley wrote his "floater" and "blocks of five" letter. The promotion of Judge Woods of the U. S. Court, who first instructed the grand jury that Dudley's offense was indictable, and then ruled that it was not, would be "peculiarly appropriate" also.—*Rochester Union.*

The above is a needless lie, and every intelligent Democratic newspaper in the country knows it to be such. The case of Dudley was before the packed Democratic grand jury of Indianapolis for three weeks. Explorations were made in every direction to find the man to whom the alleged letter was addressed, but nobody could be discovered who would swear that he had seen it. This tired grand jury took a long recess in hope that something would turn up, and then reassembled and started the hunt anew. Judge Woods told them that their work was useless so long as nobody had been bribed, and then they adjourned again. Once more the attempt was made to get an indictment "on information," but the information was lacking. The letter has never yet been seen, nor has anybody been found who dare swear that he received it. All that is known concerning it is the allegation of a Democratic newspaper that Dudley wrote a letter which it pretended to publish. Dudley promptly denounced it a forgery. Dudley could not be indicted without the letter, and if the letter ever existed it was in the hands of Democrats who feared to exhibit it. If they had done so an arrest for forgery would have followed so quickly as to make their heads swim. Democrats forged a letter which they published and charged upon Dudley. But they did not give the document out or produce fac similes of it as was done with the Morey forgery. They are simply content to pass the lonesome lie around, on the idea that if persisted in somebody will believe it. It is the last Democratic lie of the season, all others having been worn out and abandoned. Huston knows no more about the letter than the editor of the Rochester *Union* himself, but it has evidently become necessary to associate some Republican with Dudley as the recipient, or the absurd lie can be carried no further. The election is over, and Democrats can afford to be decent. And with their past bitter experience at lying and forgery, they ought to have learned that it pays to be truthful.

PUBLIC OPINION.

Stanley has earned the title of the greatest explorer of the age, in having newly discovered himself.—*Albany Times.*

A Milk Trust was about to be formed in Wisconsin, but when it occurred to the dealers that there was no way to "corner" the water part of it, the project was abandoned.—*Brooklyn Standard-Union.*

The son of the Old Roman is suggested as a suitable candidate of the Ohio Democracy for Governor. If the Democrats begin to take up the sons of their fathers one of the biggest guns of their organs will be spiked.—*Rochester Herald.*

Some regret is expressed by the Democracy now because Mr. Cleveland did not, like President Harrison, reward the brainy men in his party. Mr. Cleveland used all he could catch. The scarcity of the material was what troubled him.—*Albany Journal.*

Murat Halstead don't want to go to Germany. In the first place he is not conversant with the language; then again he can't drink beer, and last but not least, the Senate failed to confirm his nomination. But Halstead got even in a lengthy editorial.—*Wichita Journal.*

You never knew, did you, that it was narrowed down to Secretary Tracy and our own William H. Seward and yet such was the case. Brooklyn people made it too lively for Auburn and one of the most conservative of men is still conducting a safe banking business.—*Auburn Advertiser.*

Judge Daniels of Buffalo, N. Y., recently refused to give a man naturalization papers because he was a drunkard and a wife-beater. This should be a precedent for the judiciary of the nation. The country does not need such citizens, and those of the kind now in the country should be disfranchised.—*Chicago Journal.*

There are suspicious indications of a short peach crop this year. These indications consist of the failure to put in an appearance of the annual announcement that the peach crop has been ruined by an ice storm. A ruinous ice storm seems to be one of the indispensable conditions for a large peach crop.—*Binghamton Republican.*

The Republicans have made several very successful demonstrations this week of the fact that the national Republican victory in the fall of 1888 will not carry elections in the spring of 1889, unless the Republicans nominate tickets that they are prepared to vote and fight for.—*Springfield Union.*

Mr. Wilson, West Virginia's "holdover" Governor, made some remarks in a Charleston grocery store last night which were considered indecorous, whereupon the groceryman seized the dignitary by the scruff of his neck and slack of his nether garment and chucked him out in the wet. That groceryman, it would appear, is far less dilatory in needful movements than the Supreme Court of the state in which he lives.—*Troy Times.*

SPECIAL BUSINESS NOTICES.

What's the sense in saying that Catarrh cannot be cured when Dr. Sage's Catarrh Remedy is so sure and positively certain that the proprietors offer $500 reward for a case of Catarrh which they cannot cure. A full pint of the medicine is made by dissolving one fifty-cent package of the powder in water. Sold by druggists; 50 cents.

IT IS A CURIOUS FACT

That the body is now more susceptible to benefit from medicine than any other season. Hence the importance of taking Hood's Sarsaparilla now, when it will do you the most good. It is really wonderful for purifying and enriching the blood, creating an appetite, and giving a healthy tone to the whole system. Be sure to get Hood's Sarsaparilla, which is peculiar to itself.

FEMALE BEAUTY.

It is a fortunate thing that all men do not have the same taste in female beauty, for otherwise they would all fall in love with the same woman, which would be awkward. Although the preferences of men for different style of form and feature vary greatly, it is undoubtedly a fact that a face indicative of health is pleasing to all alike. A woman may be without regular features, yet, if healthy, she will be beautiful to some one and pleasing to all. A sallow complexion, a dull eye, a system debilitated by unnatural discharges, in short, all the ills attendant upon the irregularities and "weaknesses" peculiar to the sex, can be banished by the use of Dr. Pierce's Favorite Prescription. Ask your druggist.

SHILOH'S VITALIZER is what you need for Constipation, Loss of Appetite, Dizziness and all symptoms of Dyspepsia. Price 10 and 75 cents per bottle. For sale by F. J. R. Clarke, Kingston.

THE REV. GEO. H. THAYER, of Bourbon, Ind. says: "Both myself and wife owe our lives to SHILOH'S CONSUMPTION CURE." Sold by Frederick J. R. Clark.

INTERESTED PEOPLE.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does it is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50 cents and $1. We certainly would advise a trial. It may save you from consumption.

The famous Hop Plasters not only cure every soreness but prevents a return. No failure possible.

A LUCKY MAN.

Mr. Lyman Crawford, Druggist, of Springfield, Mass., says: For years I was afflicted with kidney disease in its worst form, and I state, with a perfect recollection of all that was done for me, that Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., gave me permanent relief.

If your druggist does not keep the medicine, address the proprietor, Rondout, N. Y.

ONE OF MANY.

VICTOR, N. Y., Feb. 1, 1887.

Mr. O. F. Woodward: Dear Sir: Send me one-half gross Kemp's Balsam, 50c. size, and a few samples. I certainly know that Kemp's Balsam is the best selling cough cure. I have fifteen other cough and lung remedies on my shelves, and Kemp's Balsam sells 10 to 1 best of all. Respectfully yours,

If sick headache is misery, what are Carter's Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take.

If your cough keeps you awake and restless by night, take Ayer's Cherry Pectoral and obtain immediate relief. This remedy allays inflammation heals the pulmonary organs, induces sleep and restores health. The sooner you begin the better.

TRIED AND TRUE

Friends are scarce, but if you are suffering with that horrible disease, scrofula, you will find Sulphur Bitters will cure you as it did me, after suffering eight years, and paying hundreds of dollars to doctors and druggists.—Jeannette Hanscom, Troy, N. Y.

If you once try Carter's Little Liver Pills for sick headache, biliousness or constipation, you will never be without them. They are purely vegetable; small and easy to take. Don't forget this.

SPECIAL BUSINESS NOTICES.

THEIR BUSINESS BOOMING.

Probably no one thing has caused such a general revival of trade at VanDeusen Bros., Rondout, and F. J. R. Clarke's, Kingston, Drug Stores, as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size $1. Every bottle warranted.

A NASAL INJECTOR free with each bottle of Shiloh's Catarrh Remedy. Price 50 cents. Sold by Frederick J. R. Clark.

Mrs. Caroline Austin, Astoria, N. Y., says: "Last winter I ran down so rapidly from malaria that I would faint away sitting in my chair. I heard of Kaskine, the new quinine. Using it three weeks I was well."

W. H. Helcombe, M. D., late Professor in New-York Opth. Hospital and New-York Medical College, writes: "After five months' use of Kaskine I cheerfully state that I have found it superior to quinine in its specific power, and entirely free from causing any disturbance to the hearing."

Kaskine can be taken without any special medical advice. $1.00 per bottle, or six bottles for $5. Sold by druggists or sent by mail on receipt of price.

FOR WOMEN.

Are you wasting slowly but surely away from the effects of female weaknesses? Are you wan, pale, and nervous? Do you not sometimes feel that life is losing its attractions, and that you are gradually sinking into a decline which, if not taken in hand promptly, will end in an early death? Yes, you have felt all these things, and doubtless know that tens of thousands of once rosy cheeked, plump, healthy girls and women go into their graves every year solely because these weaknesses were allowed to sap up the well springs of life till nature could no longer stand the strain. There is not a sensible maid, wife or mother who will not appreciate as more valuable than gold and precious stones Dr Fontaine's new remedy PALMETTO, which is safe, sure, and speedy in curing the worst case of female weakness.

Mailed secure from observation on receipt of $1.00 I also have a full line of elegant Toilet Goods, including Face Cream and Jellies, Wrinkle Paste Fattening Formula, Auburnine, Depilatory, Acnine, Freckle Lotion, etc. Development of a beautiful form a specialty. Sealed circulars, 4 cents.

★ BRIGHT'S DISEASE. ★

A Ten-Year-Old Child Saved After the Failure of Four Physicians.

My little girl, ten years of age, was taken sick in March, 1888, with scarlet fever. When recovering she took a severe cold, which developed Bright's Disease of the Kidneys. Her ankles, feet and eyes were terribly swollen, she had a burning fever, and all the symptoms of an aggravated case of Bright's Disease. Four of our best physicians attended her, but without success, and

Her Life was Despaired of.

But a mother's love and prayers surmount all difficulties, and I determined to try Dr. David Kennedy's Favorite Remedy, made at Rondout, N. Y. This was a last resort, and I hoped, although my little daughter's case was a very severe one, that the Favorite Remedy would do for her what it had done for others whose condition had not been, seemingly, as hopeless. How happy I am that I determined upon this course—for an improvement was at once perceptible. The fever left her—her appetite improved—she gained six pounds in a short time, and one by one the well known and dreaded symptoms of the disease left her. Words fail to express my gratitude and I cannot too earnestly recommend the Favorite Remedy. It was

A MARVELOUS RECOVERY

and is due entirely to the Favorite Remedy, which was the only medicine taken after her case was abandoned by the physicians.

Mrs. Laura A. Kempton, West Rutland, Vermont.

The diseases that follow Scarlet Fever, Measles, Diphtheria and various other complaints often leave behind them sequellas of the most obstinate and dangerous character. To expel all traces of such disorders, tone up the various organs, and fill the veins with pure and nutritious blood, use

THE OKLAHOMA SITUATION.

THE OUTLOOK FOR COUNTRY AND BOOMERS IS NOT ARCADIAN.

Contests Settled at First by Winchesters Will Afterwards Have to be Settled In the Courts—Silver Quartz Discovered in Iowa.

By Telegraph to The Freeman.

TOPEKA, Kans., April 5.—The State Railroad Assessors, who have just returned from Oklahoma, report army officers as saying that thousands of boomers are still concealed in the brush, and that if the whole United States Army was there it could not drive them out. Names are taken, but they are nearly all fictitious. Captain Woodson and Lieutenant Carson are in receipt of telegraphic orders daily to have horses saddled and bridled and in waiting on the arrival of trains at Oklahoma City on April 22, at noon. The object is to mount at once and by fleet steeds distance rival boomers on foot, and capture choice claims. A party of four Hoosiers with a balloon are camped near Antelope Hills. They will make an ascent on the morning of April 22, drift in mid air till noon and then descend hours in advance of teams and horses. The excitement is increasing daily and all Southern Kansas is ablaze. The Assessors think Oklahoma is not what it has been painted. The soil is red and the land is good chiefly for hay and cotton. Settlers taking claims will find it difficult to describe the same when they go to the Land Office to make a filing owing to the lack of surveys, and this will give rise to innumerable contests. More will grow out of the filings by boomers who stayed in the country against the President's orders and will come out of the timber on April 22. Contests settled at first by Winchesters will afterwards have to be settled in the courts. The outlook for the country and the boomers is not arcadian by any means.

SILVER QUARTZ DISCOVERED IN IOWA.

Jewelers Pronounce It Richer Than Any Ever Examined by Them.

By Telegraph to The Freeman.

FORT DODGE, Ia., April 5.—There is considerable excitement here over the reported discovery of silver on the farm of Peter Kearon, six miles north of this City. The find was made by a well-digger at the depth of 110 feet. The vein is 54 inches thick. Jewelers pronounce the quartz richer than any ever examined by them. Pieces have been sent to a Chicago assayers for examination.

BLOODSHED FEARED IN STATE OF IOWA.

Armed Mob Drive a Posse of Marshals from the River Lands.

By Telegraph to The Freeman.

FORT DODGE, Ia., April 5.—The posse of Marshals who went into the country to make evictions from the river lands were met at Homer yesterday by an armed mob of settlers and driven from the field. The posse fled to Webster City, where they took a train for Dubuque. It is supposed they will return with a larger force and it is feared the trouble will result in bloodshed.

Stanley and Emin Pasha are Believed to be Marching on Zanzibar.

By Cable to The Freeman.

BRUSSELS, April 5.—The report that Henry M. Stanley and Emin Pasha were marching toward Zanzibar is believed in official circles here. Surprise is expressed, however, that Emin should have abandoned the Lake Provinces. The ivory in possession of the party is estimated to be worth 3,000,000 francs.

An Engineer Murdered.

By Telegraph to The Freeman.

CHARLESTON, W. Va., April 5.—Thomas Washington, aged 14, murdered Edward Spriggles, an engineer on the coal road of the Pioneer Coal Company, Wednesday night. Washington had been riding on the engine and was put off by the engineer. He secured a pump handle, and sneaking up behind Spreggles struck him on the head repeatedly, fracturing his skull in six places. Washington is in jail.

SPECIAL BUSINESS NOTICES.

EPOCH.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory, and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alterative and Tonic. If you are troubled with any disease of Kidneys, Liver or Stomach, of long or short standing, you will surely find relief by use of Electric Bitters. Sold at 50 cents and $1 per bottle, at VanDeusen Brothers', Rondout, and F. J. R. Clarke's, Kingston.

TO-NIGHT AND TO-MORROW NIGHT,

And each day and night during this week you can get at all druggists Kemp's Balsam for the Throat and Lungs, acknowledged to be the most successful remedy ever sold for the cure of Coughs, Croup, Bronchitis, Whooping Cough, Asthma, and Consumption. Get a bottle to-day and keep it always in the house, so you can check your cold at once. Price 50 cents and $1.00. Sample bottles free.

PILES! PILES! ITCHING PILES.

Symptoms—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cent. Dr. Swayne & Son, Philadelphia.

ARE YOU MADE miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Yellow Skin Shiloh's Vitalizer is a positive cure. Sold by Frederick J. R. Clark.

CURABILITY OF CONSUMPTION.

This has been a vexed question among physicians, opinions, even in the same school, being strangely divergent. Of this, however, the public are convinced: it is a terribly prevalent disease, and the average doctor meets with but scant success in treating it. Consumption is in reality scrofula of the lungs, and is liable to attack any whose blood is tainted. For driving out the scrofulous humors, and thus removing the predisposing cause, Dr. Pierce's Golden Medical Discovery is a sovereign remedy. It purifies the bad blood, heals scrofulous ulcers, and, whatever differences of opinion exists as to curing advanced cases of consumption, it remains that many pronounced "incurable" have been by it brought back from the brink of the grave to restored health and vigor.

NO OTHER

As good. This is the statement of Professor Smith, Analytical Chemist: I have analyzed all of the popular blood purifiers and medicines now sold. Many of them I found to be worthless, some dangerous to use. Sulphur Bitters contains nothing poisonous, and I think it is the best blood purifier made.

Will be found an excellent remedy for sick headache, Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them.

SHILOH'S CATARRH REMEDY—A positive cure for Catarrh, Diphtheria and Canker Mouth. Sold by Frederick J. R. Clark.

"When the spring-time comes," we usually find ourselves drowsy and exhausted, owing to the impure and sluggish state of the blood. To remedy this trouble take Ayer's Sarsaparilla, the most powerful, yet safe and economical blood-purifier in existence.

"THE TABLE ROBS MORE THAN THE THIEF."

Over-indulgence at the table robs many a one of good health, and without health life is not worth living. Little Hop Pills always cure such excesses and regulate the liver. All druggists sell them. Try. Judge.

The body is more susceptible to benefit from Hood's Sarsaparilla now than at any other season. Therefore take it now.

BUCKLEN'S ARNICA SALVE.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by VanDeusen Bros., Rondout, and F. J. R. Clarke, Kingston.

WHY WILL YOU cough when Shiloh's Cure will give immediate relief. Price 10 cts., 50 cts. and $1. Sold by Frederick J. R. Clark.

ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind-colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

COMMON AIR.

The breath of life is conveyed to every part of the human lungs by means of a system of fine vessels called the bronchial tubes. When these are clogged up by an accumulation of mucous, so that breathing is very difficult, especially after any exertion, a person has the leading symptoms of Asthma or Phthisic. Besides this the tubes are often reduced to much less than their natural diameter by spasmodic contraction; often nearly suffocating the sufferer. Whether the case is of long standing or not, Dr. David Kennedy's Cherry Balsam is the most efficacious known remedy. It at once loosens the mucous matter, and causes it to be ejected by a free and easy expectoration. The Balsam in such cases should be taken in larger doses than for a common Cough, and no harm is done if some vomiting results. Take particular notice that if the disease is complicated with a dyspeptic state of the stomach Kennedy's Favorite Remedy must be used to correct the digestion. The case must be very severe that will not rapidly improve under this treatment.

For three weeks I was suffering from a severe cold in my head, accompanied by a pain in the temples. I tried some of the many catarrh remedies without any relief. THE MORTUARY RECORD.

PEOPLE WHO HAVE PASSED OVER TO SILENT MAJORITY.

Demise of Mrs. Cornelia Perkins, of Rondout, and George W. Shaw, of Kingston, Last Evening—Death of a Steamboat Pilot.

Stephen Haskins died recently at Stockport, aged 64 years. He was buried with Masonic honors.

John Bradt, late pilot of the steamboat Niagara of the Schuyler Line, died suddenly of epilepsy in Troy on Tuesday. His age was 65.

Alexander Parsell, pilot of the ferry-boat Transport, died last night. Mr. Parsell was at one time pilot of the steamboat W. B. Crane, plying between this City and Eddyville. He had been ill for a long time. Recently he went to Kyserike, Ulster County. Mr. Parsell was well known among Hudson River boatmen. Flags were displayed at half-mast, to-day, on the propellers and steamboats of the Cornell Steamboat Company, in honor to the memory of the deceased. The remains will be brought to Port-Ewen for interment.

Mrs. Cornelia Perkins, wife of the late Dr. E. K. Perkins, of Rondout, died last evening. Mrs. Perkins was about 76 years of age. She came to Rondout about 30 years ago. She was born in Barnegat, Dutchess County, in 1813. Her father was Arthur Daborn, a farmer. From there she removed to Highland, Columbia County, where she married Dr. Perkins, two years afterward. Later on she removed to Rondout, where she spent the remainder of her life. She was a Christian woman and was a member of the Wurts-Street Baptist Church. The funeral will occur to-morrow afternoon, from the family residence, on Abeel-street.

George W. Shaw, of Kingston, died last night. He was about 40 years old. Mr. Shaw was the son of the late Smith A. Shaw. He was a member of the Albany-Avenue Baptist Church, and also a member of Franklin Lodge, Knights of Pythias. He was unmarried and lived with his sister, Miss Mary E. Shaw, on Clinton-avenue. While at work on North-Front-street about a week ago he was suddenly attacked with a paralytic stroke and for some time was insensible. Yesterday he was able to be around the house. When the fire bell at the Clinton-Avenue Engine House rang last night, he became excited, fell into a convulsion and expired in a few minutes. The funeral will take place from the family residence Sunday afternoon at 3 o'clock. Interment Monday at Hudson.

PREPARING FOR AN EXHIBITION.

What Students of Ulster Academy, Rondout, are Doing.

The students of Ulster Academy, Rondout, are making prepartions for a patriotic exhibition to be given on April 30, in connection with the Centennial Celebration at that time. It is intended to make the occasion one of especial interest, and one that shall foster a spirit of patriotism and love of country. The scholars are showing a commendable degree of enthusiasm in regard to the exhibition. The attendance at Ulster Academy is steadily increasing. Among the recent additions to the Academic Department are three scholars from Ponckhockie, two from Port-Ewen, two from New-Salem and one from Ulster Park. The number of non-resident pupils now in attendance is 68. The members of the present Senior class are beginning to make preparations for graduating in June. They have adopted as their class motto the following: *Palma non sine pulvere.*

FELL FROM THE TOP OF PILE DRIVER.

A Rondout Man's Accident—Is in a Critical Condition.

At about 5 o'clock yesterday afternoon a young man named James English, of Rondout, narrowly escaped being killed outright. He was at work on a pile driver near Overbaugh's brick-yard, East-Kingston, and he had occasion to go to the top of the leaders. Suddenly the other workmen heard a thud upon the deck of the driver. It was English. He had fallen a distance of about 38 feet. He was picked up in an unconscious condition and carried to his home on Union-avenue. Dr. George C. Smith was summoned. It was found that the young man's skull was fractured. His right wrist is probably broken, and he is believed to have sustained internal injuries. During last night much blood flowed from his ears. To-day English's condition was considered critical. He was in a state of semi-consciousness.

Johanna Lives in Harlem.

A New-York lady, who is visiting in Rondout, went to Ponckhockie, yesterday, in company with her cousin. On a street were a number of goats. Thinking that her City cousin, who had lived all her life in the great Metropolis, did not know what kind of animals they were, she said:

"There, Johanna, is a very common animal, but I venture to say you do not know the name of them."

"Why, Ethel, they are goats. You forget that I live in Harlem," was the reply.

Reported To-Day.

State Senator Linson's Kingston City Charter Amendment bill was reported in the Assembly to-day.

IN RELATION TO CARE OF INSANE, ETC.

Effect on Ulster County if Fassett-Batcheller Bill is Passed.

The following statement, which is furnished THE FREEMAN by the State Charities Aid Association, shows the financial effect that the Fassett-Batcheller bill, which relates to the care and curative treatment of paupers and indigent insane, etc., will have on Ulster County, if the bill is passed. The bill is based on the principle that the insane being the wards of the State, should be maintained entirely by the State, and it consequently makes no charge to the counties, but apportions the expense on the basis of State valuation for purposes of taxation. It is estimated that if the insane of the counties [exclusive of New-York, Kings and Monroe] are transferred to the care of the State, a tax of three-tenths of a mill in the dollar will be required for their maintenance. According to the statement, the present cost to Ulster County for the care of insane is as follows:

Number of acute insane from County in State Asylums October 1, 1887	68	
Annual cost of same at $4 per capita per week		$14,144
Number of chronic insane from County in State Asylums October 1, 1887	31	
Annual cost of same at $2.25 per capita per week		3,627
Number of insane in Poor-House Asylum October 1, 1887	70	
Annual cost of same at $1.25 per capita per week		4,586
Total number of insane supported by County	169	
Annual tax to County for support of State Insane Asylums		3,053
Total present annual cost to County for care of insane		$25,410

The approximate cost to Ulster County under the Batcheller bill is shown to be as follows:

Tax [3-10 of a mill] to County for maintenance in State Asylum	$7,653
Present annual tax for support of State Asylums [as above]	3,053
Total approximate cost to County under bill	$10,686
Diminished annual cost to Ulster County for care of insane should bill be enacted	$14,724

The statement further adds: If the $900,000 for the new cottages on State Asylum grounds is to be raised by taxation, it would require a general tax of about 27-100 of a mill on the State valuation; but as the State has a surplus in the treasury of $3,714,907, no additional tax would be required—*i. e.*, it would be optional with the Legislature to raise money by taxation or not.

MEETING OF LOCAL BRANCH.

There was a meeting of the local branch of the State Charities Aid Association at the Court House, Kingston, this afternoon. R. Bernard presided. F. A. Westbrook acted as Secretary. The propeller J. C. Hartt will leave this port to-night with a tow for the Metropolis.

A VERY FASTIDIOUS TRAMP, THIS.

He Wanted a Roe Shad, But He was Disappointed.

A tramp, whose appearance would denote that he had taken an active part in the Oklahoma booming episode, stopped at a house on Chestnut-street, Rondout, to-day, and asked the lady who answered his summons for a bite of something to eat. The lady felt pity for the "road agent" and gave him a thick slice of bread and a large piece of meat. Drawing his rags together and with a look of contempt on his unshaved mien, the tramp said: "Madam, to-day is Friday, and yer oughter know better den ter offer me meat. Wot I wants is fish, an' I'd be obleeged ter yer if yer'll trot out a roe shad. No mackerel or cod-fish, do yer hear." The lady called a savage-looking dog to her side and the fastidious tramp left hurriedly, muttering to himself: "This is the wust town fer dogs dat I ever struck."

Snapem, Jr., Again.

"Oh my, Mrs. O'Grady, what is the matter with your eye?" asked Snapem, Jr., this morning, as the highly colored optic of that worthy woman attracted his attention.

"Arrah, me old man came home last night, an' he had in a drop too much of the crayture. He was a walken' an' a talken' around the room an' I says, says I: 'Pat sit down an' be aisy.' 'Aisy is it, Mrs. O'Grady,' says he, an' wid that he kicked the table over an' sent the chiny flyen'. I took a hold of him an' tried to paycify him, but me old man is that moighty when he is in the liker, that the old boy himself couldn't hold him, an' I got a black eye."

The Brick Market.

The prices for brick in the New-York market are as follows: Haverstraw hard, $8 to $8.25; Up-Rivers, $7.50 to $8; pale dull.

[From the Haverstraw Messenger.]

The price of brick has gone up, and the brick men are happy. On account of the protracted wet weather last fall the crop of brick was short, and the mild weather has enabled the builders to do more work, hence the advance.

METHODIST CONFERENCE

NOW IN SESSION IN THE ELIZABETH-STREET CHURCH, N. Y.

The Presiding Bishop Makes an Address—The Utah Mission Needs More Churches, Schools, Preachers and Teachers—Collection Taken Up.

J. H. Lane, of West Stockbridge, Mass., who is well known in this City, is in New-York attending the M. E. Conference, which is in session in that City. He writes to THE FREEMAN as follows:

A BISHOP'S REMARKS.

At the close of the session of the New-York M. E. Conference Wednesday, Bishop Mallalieu said: "It may have been expected that I would make some remarks at the opening of this session, as this is my first visit to your Conference as Presiding Bishop. I am glad to be with you, and hope our session may prove pleasant and profitable to each and all members of the Conference, and trust such action will be taken in the Conference and in the Cabinet as will be for the best interest of the cause of Christ. I have not lost faith in God in the work of the Conference and ask an interest in your prayers. I am your brother, and hope you will so consider your relation to me, and feel free to come and consult with me on any matter respecting your appointment."

YESTERDAY'S PROCEEDINGS.

Following the opening of Conference, yesterday, the Rev. T. C. Iliff, of Utah Mission, addressed the delegates. He stated that the great need of that country just now was—more churches, schools, preachers and teachers.

A collection was ordered and about $500 were raised. At the close of the collection, Chaplain McCabe proposed that the members pledge themselves to build one church this year for the Utah mission work.

C. N. Sims, D. D., L. L. D., Chancellor of Syracuse University, then addressed the Conference.

The examination of preachers as to their work during the past year was taken up, and the Rev. A. J. Palmer, D. D., Presiding Elder of New-York District, reported a success in the different departments of church building, revival service and missionary collections. The name of each effective preacher on the District was called, and each one reported his collections.

Dr. A. K. Sanford read the report of the Conference Trustees—total of personal and real estate connected with the Mt. Rutson and other legacies, $83,406. He stated that there would be added this year by endowment $20,000 more.

A Committee was ordered to nominate Trustees to fill the places made vacant. The Rev. Messrs. A. K. Sanford, A. Schriver and J. E. Gorse were appointed as such Committee.

D. A. Hunt, the Secretary of the American Bible Society, represented the Bible cause.

Dr. Homar Eaton, Associate Agent of the Methodist Episcopal Book Room, stated that 100 years ago the publishing house was established with a capital of $600 and that money was borrowed. Now they have $2,600,000.

TO-DAY'S DOINGS.

A dispatch from New-York to THE FREEMAN, to-day, stated: In the New-York Methodist Conference, to-day, favorable reports were received from the Presiding Elders of the Newburgh, Kingston and Poughkeepsie Districts. The question of the age of the Conference has been practically settled in favor of the party who fix the date of its establishment as 1790, so that the centennial will not be celebrated until 1890.

A resolution was passed protesting against the passage of the bill now before the Legislature to include the Catholic Protectory among the schools supported by State money.

Another resolution protesting against the bill now before the Legislature giving the Mayor power to appoint one School Commissioner from each Assembly District, was also passed.

The preliminary report of the Treasurer showed a total mission fund of $44,361, an increase of $183 over the fund of 1888. This fund is divided as follows: Kingston, $3,878; New-York, $30,467; Newburgh, $6,810; Poughkeepsie, $3,205.

AN OLD HUNTER'S EXPERIENCE.

His Fight with a Bear in the Catskill Mountains Described.

Charles Dyer, bear hunter, of Phœnicia, in talking over some of his old bear hunts said to a reporter of THE FREEMAN to-day: "I got a good many bears during my hunting days, but the best luck I had was killing fottr bears one fall. About the biggest bear I ever saw, I got too early to make anything out of his hide. How big was he? Why, as big as an ox! but there was no fur on him at all. I got that bear in the Beech Flat to the right of the Wittenburg Mountain, above Snyder Hollow, in the Catskills. Did I trap him? No, not a bit of it; I had to shoot him seven times before I killed him. Fight? Yes, he fought all he could. I didn't have a dog with me at that time or I wouldn't have had so much trouble. When I started out to go hunting that time I took my rifle along instead of a shot-gun. While walking unconcerned through Beech Flat, all at once I come on this bear. I fired, but being a little flurried didn't put a stopper on the critter. He came right along for me. I loaded as I ran and would turn around quick and plug a bullet in him. As I said before I shot him seven times before I brought him down. Finaliy I got a shot in that fixed him. After I shot him then I had more trouble, because of course, I couldn't stir him from there. I went down to 'Gus.' Snyder's, and asked him for a yoke of cattle. 'Gus.' says, 'I can't let you have the cattle, but I will send up three men with you and you can fetch him out.' Three good men went along and we got a big pole and strapped him on it. He was so heavy we could only carry him a little ways at a time and then we had to lay him down to rest. Gosh! I tell you it almost took the wind out of me. We managed to get him a quarter way out of the mountain and then I found I had to get a yoke of cattle, so I went down in the valley and hired a yoke, hitched them to a sleigh and we fetched him out. How much did he weigh? Why, that bear would have weighed 500 pounds if he had been fat. It was the biggest bear I ever saw and he could fight all the harder and run all the faster because he wasn't fat. A good bear dog is the thing to have along when you hunt those critters. A bear can't rush at you if you have a dog. The dog grabs the bear in the hind leg and then the bear turns on the dog. A knowing dog lets go and runs off, but the moment the bear turns his head, the dog is after the bear again and nabs him."

CLASS WAR HAS BEEN INAUGURATED.

College Students who are at Odds—Funeral Procession.

[From the New-York Sun.]

A class war has been inaugurated in St. Stephens's College, Annandale. On Tuesday the class of '90 planted an elm tree, which was sawed down on the same night. The members of the Senior class were charged with the indignity. They declared themselves insulted, and refused to make any answer to the Juniors. In this they were supported by the Sophomore class. The class of '90 retorted by cancelling all subscriptions toward the next commencement day expenses, and the Freshman class shed tears of sympathy with the '90 boys, and also refused to help defray the expenses of the Seniors at commencement.

On Wednesday the Junior class again planted a tree, and that night stood guard over it, ready to give any offender who might come near a warm reception. At the same time the members of the Freshman class set out into the darkness, carrying with them a small coffin. They had passed their examination in algebra, and Wednesday night was the appointed time for the burial. The Sophomores were not long in getting a scent of the departed funeral procession, but they soon lost the trail, and for hours searched the woods and beat the bushes in vain. At midnight the Freshmen returned, and, coming up in a body, ran upon the junior guards at the new class tree. They were immediately surrounded, but their class cry saved them, and they were able to enjoy a supper to which the Sophomores were not invited. Thursday morning a great orange-colored banner bearing the legend "'90" hung from the Junior class tree. There is intense excitement, and the Juniors will have to guard their tree for some time.

THE DESTRUCTION OF FORESTS.

The Adirondack Region Being Stripped—Where the Wood Goes.

In speaking of the destruction of the forests a Middletown paper says: "The principal agencies now at work stripping off the timber are the great lumber companies and the wood-pulp and wood-alcohol men. An example of the destructive work done by the lumber companies is found in the recent purchase for immediate cutting down by a West-Troy firm of 34,000 acres of spruce forests in the Adirondack region. The smaller fry of lumbermen equipped with portable steam saw-mills, which may be readily moved from point to point, follow in the wake of the big operators and glean every foot of timber of any size or value that is found standing. There are 40 wood-acid or wood-alcohol factories in Sullivan, Broome and Delaware Counties which consume not far from 250,000 cords of hard wood every year, while the numerous wood-pulp mills of the region absorb an enormous supply of soft wood. The brickyards along the Hudson are also insatiable wood consumers."

A Communication.

The following communication has been received by THE FREEMAN:

"I would like to correct a statement made by Charles Merritt in reference to me as reported at the late meeting of the Board of Health. He is credited with having there stated that 'Marius Schoonmaker had however given notice that his land would be damaged if the course of the brook was changed as it would cease to flow through his property.' I beg to say that I have done no such thing nor thought of it. But last year Mr. Merritt told me if it was attempted he would sue out an injunction and asked me whether the Common Council had the right to change the natural course of the brook so as to divert the water from his land. I told him they had no legal right. I will add that if the City authorities will correct the error they made in laying the culvert under the Fair-street extension and make it larger and deeper there will be no difficulty in draining that land. M. SCHOONMAKER."

A Child's Peril.

[From the Newburgh News.]

Horror was depicted upon the countenances of a number of residents of Ann-street yesterday afternoon, who chanced to be looking from their windows. It was caused by the sight of a tot of a child walking about the gutter on the roof of a three story house, in blissful ignorance of any danger. The parents of the child were notified and soon removed the child from its perilous surroundings.

Work Completed.

Work on the fortification at Hutton's brick-yard, East-Kingston, to guard against the dangers of a land slide there, has been completed. Large logs and stone were used. Should another slide occur there, no further damage is anticipated other than the obstruction of the road that runs past that point.

Still Alive and Kicking.

[From the Catskill Recorder.]

In looking over our files the other day we ran across the official report of examinations in Greene County for exemption from military duty, dated December 11, 1862. The total number of applicants for exemption was 1,828 and the number exempted by the examining surgeons was 1,482. There was an appalling amount of ill-health in this section in those days, brethren. And yet a great many who apparently wouldn't live to see flowers bloom again are still alive and kicking.

Judge Geo. C. Wing,

Of Auburn, one of Maine's prominent lawyers, and for several years the Chairman of the Republican State Committee, was troubled with boils on the back of his neck in their worst form, resembling carbuncles. Three bottles of Brown's Sarsaparilla completely cured him, and now Judge Wing speaks in the highest praise of Brown's Sarsaparilla.

The long sought remedy for spring lassitude has been found. Entirely free from the noxious alcohols it is compounded of these ingredients which extended medical experience has proven to be the most potential in their effect upon the kidneys, liver and blood, and, unlike the common "spring medicine" with which the market is flooded, its effect is not only immediate, but enduring. No stronger evidence to this effect could be offered than the voluntary testimony to its virtues of men of the character and position of those whose names appear with their willing permission through all our works. Men, women and children alike can take it with safety, and for ladies who are peculiarly susceptible to that tired feeling at this season of the year we advise the use of
